OPERATION CHANNEL CAT -Something new in flood prevention was tried in the Moira River by the city, public works department today. In a move to clear a channel to below the CPR railway bridge a big caterpillar

bulldozer was put to work on the bed. Seen almost buried amon ice floes is the big McFarland struction Company bulldozer cleared a channel on the west ba the river.

TCA Pilot Was Stunting In Own Plane

IT WORKED — Bulldozer operation in shallow river bottom met with success as is seen by oper channel looking north toward lower bridge. Ide was to open channel in ice so that water could es cape should a sudden rain raise water level.

District Man Beaten in Congo News that a Madoc airman, LAC Marvin ong, was one of several Canadians abu by Congolese soldiers over the weekend may bring home to district residents their direct inst in affairs in that far-away land.

We all have a tendency to regard such vents as problems for statesmen but of no personal interest to the ordinary citizen.

As long as the UN is called upon to provide police for disturbed areas, and as long as Canada participates in these joint undertakings, there is always the possibility that these developments can become just as much a personal problem for some local family as a dangerous-curve on Highway No. 2, or a treacherous swimming hole.

Armstrong escaped lightly—he was only slapped a dozen times—but in the tense atmosphere of the Congo there is no guarantee that the next time a district soldier or airman is abused the results may not be much more

We have found it a constant source of We have found it a constant source of amazement that Canadian and other troops have displayed such excellent self-control in the face or repeated provocation. It may well be of course, that in many instances the instinct or self-preservation has been a powerful factor—it has been a case of submitting to blows or inviting death. That, however, is not the whole story. In many instances resistance, although risky, would almost certainly have been feasible. But, in accordance with orders which formerly governed the conduct of the troops, this has een avoided

governed the conduct of the troops, this has been avoided. It must, though, have been greatly humiliating for brave and atrong men to have to the store that the state of the store that the worders to resist with "full force," but it should have been had this been the established policy from the first. Many of the Congoles soldiers will probably be in complete ignorance of the lucky, indeed, if we do not see sharp armed claskes, if not full-scale pitched battles, between UN forces and one or other of the contending Congo factions.

Would it be unreasonable for Canada to dermand that in future, before it sends men to carry out the UN obligations, it be clearly understand that in future, before it sends men to carry out the UN obligations, it be clearly understand that in future, there is the store it is to be unreasonable to demand that in future, UN forces to the trong cought to set in this manner? What

be strong enough to act in this manner? What chance would police have in any of our cities if they were compelled to submit to manhand-ling of the kind to which Canadians, and other bers of the UN force in the Congo, have been

De Gaulle May Get Dividend

De Gallife May Ger Lividentia The relationship between President Habib Bourguiba of Tunisia and the French Govern-ment has not always been a happy one. Nor is it true that the only cause of tension between Tunisia and France has been the alleged use of Tunisian territory as a base by Algerian rebels, The Tunisians also had a sharp disagreement with the French regording continuing Franch control of the President Security of the Lividentia of the Control of the Control of Lividentia of the Control of the Control of Lividentia of the Control of Lividentia of

It is therefore doubly interesting to muse on the possibility that President Bourguiba may be the magician who will extricate President be the migdelan who will extricate President Charles de Gaulle of France from his position between the horns of his personal dilemma—how to win a stable peace in Algeria. Bourguibs on Monday opened a conference with de Gaulle which may eventually reveal some faceaving formula whereby France and the Algerian rebels can withdraw from Illa-drived positions on the proposed self-eletermination program for Algerian rebels can withdraw from Illa-drived positions on the proposed self-eletermination program for Algerian rebels and with the proposal; de Gaulle has said that he will not necoliate on the details not the rebels lay down negotiate on the details until the rebels lay down their arms—and there both sides are stuck, within sight of a possible agreement but pre-vented from discovering whether this is possible by their earlier obstin

If Bourguiba cuts this Gordian knot, it will be just an additional proof of the benefits which can accrue to former imperial powers if they are generous and open-handed in relinquishing control of colonial areas when the time is ripe. France, under de Gaulle, has been particularly progressive in its policies the past few years, D. Gaulle deserver a dividend—and he needs it badly in Algeria which threatens his whole pro-gram of converting France from a colonial power into the head of a free commonwealth.

Speed Not Worst Hazard

While highway speed may relate to the seriounness of ac-cidents when they do occur, that in itself is not a major to the outse of accidents.

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor The Emelans are going all out to win the world ateur hockey fournament in Switzerland, come hell, h water, the Congo or Uncle Dag of the United

And heads have rolled too. They fired our old hiddy-buddy the coach of the 1953 Russian team, Aneoty Tarneyv. As they want to do with the United Nations, they replaced the individual boss-man with a tribunal of mentors.

A story out of Geneva says "if thoroughness in pro-ation is anything to go by, the Russians emerge as ar favorites. They are leaving no avenue unexplored their bid to select the best available team for the trip Scatterband."

The Smoke Estern won, lost and tied games in Hoseow but get this: they were not playing against the Russian national squad. The team that will represent Russia in Switzerland has yet to show its wares against a foreign national club.

Methe they had the wrong style of shorthand or their as week haywire in transcription, for the Macs clobbered Bussians 3-1 in that memorable game in Prague. . . .

This year it is different. The Russians changed their observation incides. No notes-gathering private eyes this time. Instead an invitation to the Cana-dians to play a three-game series in Moscow.

Sure, the Smoldes got the red carpet treatment, al-such they toused a Red team around the rink a little ughly on one occasion. But "nyet, tovariche," no hard lines, it's all an the game,

The Smokies got a taste of the brand of hockey scovites see for they played nothing but Moscow club I district representative players.

The national team was hidden away, undergoing irealment by the Big Three, Arkady, Alexandrov and Analoly, the coaching triumvirate which replaced Trassov. This frie drilled the nationals hard. They will play but one exhibition game before the tour-

New Marvel of Science?

A news service story from London says that Britain has invented a device which can spot nuclear submarines thousands of miles away, under water

This is difficult to believe. Still, there was a day when the very suggestion that objects could be located by a variation of radio wavesradar—raised eyebrows. The British device which "hears" submarines is said to be electron-ic, working on radio principles. working on radio principlies - - - so maybe we have a new marvel.

we have a new marvel.

It is this device which may have been involved in the recently uncovered spy ring at Portland, in Dorset on the south coast. It was at Portland that this marvellous "ear" was

developed.

If there is any truth to this story, one can understand why the Russians would be so interested in learning the secret of the nuclear Keeping the peace, in this age of the nuclear Keeping the peace, in this age of the nuclear Keeping the peace, in this age of the nuclear Keeping the peace with a special to the peace of the peace

possibility that the enemy may strike list.

Missile bases can be located and made the targets of other missiles. It these are fired first, the bases may be destroyed. Even the recently announced U.S. plan to mount its latest development.

Or it may be, such is the fear and suspicion in the world, that the Russians actually fear the U.S. might use the Polaris in a nuclear blackmail threat, proceeding on the basis that no matter how many missiles the Russians fired at U.S. targets there would be nothing they could do to prevent a steady succession of Polaris missiles being showered on Russian cities from beneath the protection of the sea.

Cure Worse Than Disease

City Engineer W. L. Bradley of Kitchener plans to ask the city council there to pass a

plans to sak the city council there to pass a by-law fording motorists to equip their cars with snow three or chains during the winter. His reason—cars not so equipped tend to cause traffic jams when snow is heavy. One can sympathize with Mr. Eradley's view, but his proposed remedy is unacceptable. From it a city council has power to pass such a by-law—about which we have the gravest and a by-law—about which we have the gravest the proposed country might be feasible it hos only cars which used the streets of Kilchener were vehicles owned by Kilchener readents. But

The proposed solution might be feasible if the noily cars which used the streets of Kitchener were vehicles owned by Kitchener reddents. But there will be, on any given day, hundreds of cars passing through Kitchener whose owners are supported to the solution of the street with the support of the solution of the solution of the solution dealing with traffic. If there is really a need to force all cars to be equipped with mow three or chains, then the body which should act is the provincial legislature, rather than any muclipal council. There are, however, many parts of Ontario—including motorists find that only reach the majority of motorists find that only reach the majority of the solution of the solution. If sitchener's city engineer wishes to argue that this is a point favor of municipal control, he is welcome to, to so —but we predict that his city would rapidly the continuous supportance with motorists from other centres were such a municipal by-law ever

The best thing to do about snow as an obstacle to smooth traffic flow is to, grin and bear it—and remember that in all but a few snow-belts the days when traffic is really ham-pered by heavy snow in Southern Ontario are few in number in these times of efficient snowplows and snow blowers.

Government is a truste, and the officers of the government are trustees, and both the trust and the trustees are created for the benefit of the people—Henry Clay.

Canada's most successful sound

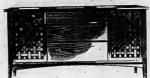

Just about all of us feel a pleasant slow of national pride in the exciting success story of youthful Canadian Peter Munk, P.Eng., and David Gilmour, who engineer and design Clairtone Stereophonic high-

fidelity units ... and it looks as though the story is going on and on. From a national design award in 1959, to international ac-

last summer, Clairtone units have met with immediate and enthusiastic acceptance. Recently-opened offices and

showrooms in the U.S. make Clairtone the only Canadian electronics company in that country, and already these distinctive Canadian models are on sale in the United Kingdom. From all over the world, in fact, have come inquiries about

Clairtone . . . an exciting tribute to Canadian craftsmanship which is unparalleled in the electronics field. We invite your attention to The Empress, The Princess, and The Countess models shown here. Within the timelessly styled, hand-rubbed walnut or teak cabinets (unmarred by gilt or

chrome or maker's crest) are skilfully engineered components that provide new clarity and truth in sound reproduction. Mr. Munk's patented "Resotone Cell" linings enrich sound to a dramatic degree. And Clairtone has anticipated electronic developments of the future with an electronic stereo balance meter and facilities for stereo radio broadcasting.

Truly, your Clairtone is designed for today CLAIRTONE AND tomorrow.

OF CANADA

Forty proud owners of Clairtone in the Belleville area can testify to the dramatic achievement of High Fidelity reproduction.

Sport Slices ...

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor

In a head at one and of Las Vegas rold, gillies and gambling sirth, Sugar Ray Robinson, the aging sour-and-dance man from Harlem had his first workest in the hostelty.

The "joid was jumple;" with a crowd of over 1,000, cluding top figures from the show business world with pleastful garnishing of Les Verges forms girls.

Super Ray mosts mediateweight champion Gene Pallmer there in their fearth tills match an distinct might. The record to date!" Fallmer the decidient over the solved family, Surger Ray Mosts is knocked over the Memons. The high destring was a draw.

STIGAT WAY TORINGON

tor set in public up un-

Ter his final tuning up.

Marying the boys in the plant room after looking over the select Palmar Country of the first plant room after looking over the select Palmar to the secret training cococo. In any event the odds on Paller fe win dropped sharply after Singer Eay made his first public appearance. And Fallers retains the ceven.

Robinson has not lost the showmanship that made the derling of the Parisien bouleverds, bistros and stories. He clowned, flashed while teeth in during ee and kidded the chorines as flash bulbs exploded.

They still talk about the Fullmer-Robinson bouts in a crecker-barrel society. They gurgle reminiscently ut the second fight and of the last meeting when the t coded in a draw.

Yet four months after he lost, his title to Fullmer he faced the new chamgion again, in the Chlosqo Staf-lum, and, at the see of 37, seconditied what no other righter has ever accomplished. After give and lake for Robinson threw a left hook. It was a lakeric punch because, lif won back the title for the 1-3 underdog, Rob-lugan.

The New York Times crudite Arthur Daley says,
"as a boxing artist, Sugar Ray was unmatched in this
puglistic peneration. Some 26 or 30 years from
now he will be mentioned in the same awed tones
as Stantey Keckel, Joe Gans, Benny Leonard, Terry
McGovern, George Dixon, and others

Saturday night should prove whether he has ex-ad enough from Sugar Ray Robinson. Will it be other historic moment for the dusky here of Har-a, or the twilight and dusk of a boxing god?

TICATS SIGP BACK REGAIN SQUASH TITLE RORTO (CP) — Hamilton | NONDON (AP) — British recisis of the Big Four Foot engined the United States 50 in Legans amounted Wednershop they have signed Loreno and regained the Wednesday they have signed Loreno and regained the Wedle - Neel Park and 17. A Proud New Building

A Froud New Building

Bellowite and district distens, we rel sure,
must have been impressed as they saw the modmer Vetoris and Grey Trust to, building rising
is the corner of Front and McAnnany Streets.
Sow that it is completed, now that the Trust
Company has occupied to quarters on the ground
from that the dispes have been drawn back
more than the dispes have been drawn back
more than the dispes have been drawn back
more than the dispessable to the street of the
modernity and ever appeal, first impressions are
construed and compounded. This is a building
to be pround of.

ere is something symbolic about the fact There is something symbolic about the fact that this fine new four-story glass and stone structure, one of the most modern office build-ings to be found anywhere between Canada's two great metropolises of Montreal and Toronto, aboutd stand shoulder to shoulder with the venerable City Hall. Here is a blending of the old and the new which, we hope, accurately depicts the spirit/of Delivellis and of the whole Quinte district. It is worth noting that the depicts the sparty of Belleville and of the whole Quinte district. "It is worth noting that the Victoria and Grey Trust Company shares with the city this happy habit of combining old and proud traditions with vigorous new growth. It is true that the Victoria and Grey Trust Co. came into existence only eleven years ago, the same year that it first established an office here, but it is an amalgamation of two trust companies which were founded in the last century. The Owen Sound, Grey and Bruce Loan Co., which began its history in 1889, and The Victoria Loan and Savings Co. of Lindsay, incorporated in 1895.

in 1882. Here in Belleville we may, perhaps, be par-doned for thinking that the handsome new building just opened is the brightest jewel in its crown and marks one of the most important mulestome in the firm's story of steady and de-serred growth. It is also symbolic of the confidence the company has in the future busi-ness growth of Belleville.

Missing Color Is No Joke

On Sunday, February 19, the famous regi-mental color of Hastings and Prince Edward Regiment was removed from its place of honor

in the officers' mess in the city armory.

Lieut Col. Aggus B. Duffy, CD, commanding officer of the regiment, a veteran "firsty Pee" with a long and honorable military career, when the control of the regiment of the regiment of the regiment. d of the incident, regarded it as a prank. But ten days passed with no evidence of the return or the whereabouts of the missing

Now Col. Duffy has taken a grimmer view of the incident. The thoughtless act of a person or persons in removing the color has stung the commanding officer and the regiment to the quick. He issued a statement to the effect that

quick. He issued a statement to the effect that "drastiz action would be taken it the color were not returned by March 1st." That was Wednes-day, and to this writing the famous color with its bettle-honors is still missing. The person or persons responsible are urgenity requested to return the color to the regiment. The taking of a piece of military equipment is one thing; the removal of the color naches.

another.

For a regimental color with its honored battle decorations is not a piece of military equipment. It is tradition in the truest and bravest-sense of the word. And its taking is a desceration of that tradition. Personal or regimental grudges to the contrary, the removal of the Hasty Pees color directly affects not only the commanding officer, the officers and men who serve at present in the unit, but some 5,000 all ranks who helped blaze a glorious page in the wartime history of the famous "plowboy

regiment.

The white silk inscriptions on the blue silk background of the gold-fringed flag record some of the finest hours of these fighting men of Hastings and Prince Edward counties. These Hastings and Prince Edward counties. These hare the mute memorials to those of the "White Battallon" who lie in fields where popples blow, and many others. They are a lasting tribute to those who, having served well, came back.

District veterans of other units who served

District veterans of other units who served overease do not regard the taking of the color as a "joke" or a "prank". All have a tradition called "memory" which makes them blood brothers of the Hasty Pees. They do not regard the descentation of their tradition as something to be taken lightly. Many regard the incident of the missing color with something ain to diagnat and anger. Descending the color to tradition of the missing solor with something ain to possession the color to return it as quickly as possible to the regiment so that it may shortly take its honned place among others in the chancel of a Houge of God where it will remain as long as it still list, a solemn memorial to those who died and lived in the service of taker gainest and their country,

their regiment and their country.

A nice drive to the country . . . a paved road all the way . . . and saving money by doing it!

Did YOU know?...

CHISHOLM'S of ROSLIN

carry everything in the Building Line-can do everything for you from the smallest repair to building the complete house — from creosoted poles to the completed barn — can supply every thing for the "Do-It-Yourselfer" from timbers of all sizes to the most beautifully finished panel board?

Spring is not far away and time to think of all those much needed repairs — that remodelling that you have put off for so long — or that new home that your heart is set on!

Bring your ideas and your plans to us-we have ideas too! - for instance that new home - on your foundation we will erect the completed outside of the house right down to the last door lock - the inside will be entirely unfinished - and hand you the keys. At your own time and convenience you can then finish the inside yourself (we'll rent you the power tools and supply the materials). You will be surprised how much this will save on the overall cost. Financing? We will take care of that for you or arrange a mortgage if you like.

A "SUMMER COTTAGE" is in the minds of many at this time of year. We will erect a cottage, to your plans or ours, on your own foundation at a price that will really please you.

COME TO THE COUNTRY — browse around our shewroom (you will see many tools and gadgets that you have always wanted) and talk over your Plans or

rigition raises arrive 350 per west, and its Chandes \$10.00 per year; 6 months \$6.00; 2 months \$1.00 and in U St.A. \$11.00 per year; before of the Camadama Daily Revenues Association; Minnshe of Chandian From; Member of the Atolii Bureso of Chreshelma.

The Nicholson College Grant Request On February 13, a deputation from Nicholson Catholic College waited on the City Council and requested a grant of \$25,000.

The City Council has not yet announced its decision. Presumably members are still studying the facts and considering the principles at

The facts are fairly simple.

By law, Catholics are entitled to separate elementary schools. These schools are supported by taxes on real property and Provincial Government

ernment grants.

Here, the separate school also includes continuation school classes, grades nine and ten, which are supported out of the separate school rate, which is the same as the public school rate, although public schools have no pupils above grade eight

There are some 200 Catholic grade nine and ten pupils who would otherwise be attending one of the city's three secondary schools.

Catholics pay the same high school rate as Protestants and other property owners. They are not entitled to divert their taxes to the are not entitled to direct their taxes to the support of a Catholie high school like Nicholson College. This school receives no provincial grants. Its cost is being met out of parsist students attending it from outside the city. It is possible that in the future the parents of Belleville students may also be asked to pay fees me addition to contributing through their taxes to the support of the public high schools, which their children, of course, have a right to attend if they desire to do so. if they desire to do so.

If they desire to do so.

There are a hundred Belleville students at Nicholson College. The perpupil cost to Belleville attention of the state of th would not be increased it an innovation cannot extend the students attended the public high schools. Dividing the per-pupil cost in approximately half, it can be argued that Nicholson College is awing Belleville taxpayers approximately \$10,000 a

Believille taxpayers, approximately, \$10,000 a year.

The grant requested is a one-time grant—not an annual grant.

These are facts.

Two principles would appear-to be involved Are separate high schools desirable?

Since a grant of \$25,000 was made a few years ago to Albert College, a United Church institution which caters largely to out-of-town institution which caters largely to out-of-town their takens (and the second their caters) are protested taxpayers, who may oppose separate high schools as a matter of principle, justify critising equal trestiment to their Catholic fellow-tiltsens?

These seem to be the relevant facts and

Iow-citizens?

These seem to be the relevant facts and principles involved in this question. It is now up to the members of the council to weight them and reach a decision.

Consumer Debt Climbs

The Dominion Bureau of Statistics reports that consumer credit—or debt—increased by 8.4 cent during 1960.

There will be some who will argue that this

per cent outsing some who will argue that run. There will be an economic constituent have remarked in many families finding its difficult to repay loans on schedule and that an increase like 8 per cent may be no more them an indication that finance and loan companies and department stores are being lenient in collections. The answer to this surely, must be that while economic conductors with the property of the surely, must be that while economic conductors with the property of the surely may be that while economic conductors with the property of the surely property of the surely of

while economic conditions would be expected to increase debt—or to alow repayment—in this manner, one might also have expected that they would discourage new borrowings, by those not already in financial trouble. Do those people they may be also deferred to the size of the people of the path of common sense. And yet, perhaps, we should not depire the fact that many people do not seem to be following it? If there had, if fact, been a decline in congumer.

debt, would this not have meant a decline in pur-chases by consumers, and would such a decline

on the added to our unemployment problem?

Where is the layman who can understand all the implications, and offer a reasonable sofu tion, for our problems in today's complex

CONFUSED

Much of the time in these heetle days many people are almost as badly confused as was the drunk who put a coin in a parking metre, looked up at the town clock and exclaimed, "Gosh Pre lost 10 pounds."—Cornwall Standard-Freeholder.

Combines And Profits

Combines And Profits

A U.B. protessional engineer, in a letter to
the editor of the Troumto Globe and Mall, raises
an interesting point in connection with this
recent conviction of U.S. electrical arms for,
violation of the anti-conditions law. Such legiidation, he argues, is based "upon a very laudable dearle to protect the public against suntions
profit making." The letter of the law may have
been invoken, the argues, but the law may have
been invoken, the argues, but this is a resonable
and the control of the control of the control of the control
and the control of the control of the control
profit-wise, over the years by these price-faring
practicies? I cannot recall any fartifing results
being shown in any of these companies balance
shoets."

sheets."

The inference is clear—the argument is being advanced that, unless excessive profits result, it should not be a crime for companies to enter into agreements fixing prices.

The very same argument has been heard before in Canada, in business circles.

The very made, in business circles.

The very made, in business circles.

Those who advance it overlook one pointing the public of the capitalistic, or free centerprise, system is that competition will not merely regulate prices but will increase efficiency.

Even if firms which enter rithe price-fraining arrangements do not make excessive profils, it is possible that such agreements are depriving the public of the benefit of convenients are deprived and the process of the count force bearing the public of the benefit of convenients are deprived as a second force bearing the public of the benefit of convenients are deprived as a second force bearing the public of the benefit of convenients are deprived as a second force bearing the public of the benefit of convenients are deprived as a second force from a large and a large

Some will deny that this is 80, arguing that every firm will stain every muscle to increase profit. Steptics will reply that the instinct for survival is more powerful than the instinct for profits and that no first will be that to cut cost and increase routerfully than when it is fage to the thing to seek maximum pro-may be added, the may to seek maximum pro-may be added, and the proposed the seek maximum promay be assed, the urge to seek maximum profils, in this day and age, is weakened by several
influences, by the fact, that the managers are
influences, by the fact, and the managers are
influences, by the fact, that the managers are
influences, that the managers are
influences, that the managers are
influences

However, before we jump to the conclusion that competition is always desirable, we ought to ask ourselves what would be its result in the some of the industries where there are only a some of the industries where there are only a few mammoth compenies—and it is in just these industries that price-fixing arrangements seem to occur most often. If there were no holds barred-in competition, could it not be that the most efficient company would grab most of the bu-siness, starving its rivals and in the end produc-ing a situation much closer to a real monopoly than even that resulting from price-fixing?

The truth may well be that the theory of

free competition promoting efficiency, lower prices and better products does not operate in all areas of our present economy. The theory of the free enterprise system was devised before our present industrial glants had evolved, when almost every individual with manual akills and tools was in potential competitor. More and more

almost, every individual with manual skills and tools was up obtained competitors. More and more, the number of possible competitors is being reduced, as the cost of providing workmen with the incessary tools mounts ever higher.

The control of the control of the control of the whole theory of how our economic system works, what is permissible or destrained, what incentives and controls are required and who should be responsible for making certain that these incentives and controls exist and function effectively.

Hey Mabel --- A New Fable

Hey Mabel — A New Fable
Bewertes, and The Canadian Fress in an
Ottawn story, the other day, "want the suds
out in the open."

They got it there with an amazing displayof froitly thinking. The brewer's representatures appeared before the Board of Broadcast
Governors recently. They were seeking a
change in rules which would permit the showing
of brewery brain a mans and labels on teleristion
Molson's Brewery Ltd. complained about the "all
too important subberfuge" in beer commercials
under present rules. Ian Dowle of Canadian
Brewerie's Ltd. said "beer advertising should
be frankly beer advertising—and not vague and
evasive."

Evasive."

Brave words. And then what do they do?
They argree that there should be no "drinking scenes."

In Heaven's sake what do they think the consumers do with the suds—use it to bathe the dog?

Dogmatism is puppyism come to its full growth.—Douglas Jerrold.

FEBRUARY 25th: The British Empire Motor Club-organizers of the 9th annual International Canadian Winter Rally declare...

The 9th International Canadian Winter Rally: 1.265 miles over Ontario roads. The contestants: from Canada, England, United States and Sweden. The test: to arrive on time at checkpoints-each minute late or early cost a penalty point. Further

points lost for car damage or deteriorated operating condition. Four classes (based on engine displacement):-below 1,000 cc-1,000 to 1,300-1,300 to 1,600-over 1,600 cc). One

CORVAIR TAKES FIRST PLACE! After final tabulation of all the results, Corvair's Monza manned by Dick Doyen and Clay Gibbs was declared individual rally champion. According to the Rally Authorities and subject to final official confirmation, Corvair finished the 1,265 rugged, wintry miles with a clean slate, beating all comers.

'61 CORVAIRS STARTED-ALL 12 FINISHED! In a test of man and machine where it's an accomplishment even to finish the course (over 40 entrants didn't) all '61 Corvairs came through with flying

CORVAIR TAKES FIRST 5 PLACES IN CLASSI A clean sweep for Corvair in its engine displace ment class (over 1600 cc)-unquestionable proof

of Corvair's superiority over all rivals. Forty-three of the 191 entrants were in this group.

IN DEALER TEAM STANDINGS! Here Corvair's superior tractionget-up-and-go performancenimble handling meant first and second place for these two 3-car teams.

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor

Inspector Clare Hayes of the Belleville Police Deb partment and Deputy Chief "Warpy" O'Brien of the Belleville Fire Department met on the street the other

Usually these two public officials are on the best of ms. / But there was a touch of frigidity about their m this particular morning.

Inspector large given at the Deputy Chief with that "Anything you say one be taken down in writing and be used against your attitude. Deputy Chief O'Brites with the glassy-yel sizes of a hanker about to retrees a loan, glowered like Zos-Zos Gaber at a plong diamont.

"Good morning," deputy," icicled the police official.

The second-from-the-top Smoke Eater froze him with a

"The same to you, sir," be grated. Ice water dripped the remark.

Inspecter Hayes broke the atlence. "In case you're interested, Mr. O'Briten," he hissed, "we're going to best those puck-chasing hosephes of yours to a rubbery paip come Friday evening."

"Ob, yeah?" he roared, aski the ice on the bay restled

"Any time," he followed through, "those pave-nut-pounding preferes of Probert can even score a all on the muning heroes of Vance, Incorporated, Fil-te the Conge and start my own fire department."

All of which is in fun and points up to the Police eman hockey game schoduled for Memorial Area ne Friday night.

Inspector Hayes is the "Connie Smythe" of the I

It is the named police-firemen game in aid of the Shrine Club's Crippled Ohldren Fand. Shrine per-sident Jook Allin has delegated that Seprilar Camel-Merder's chieftain Genera Museller and Loc Collier to the Job. They are being aided and deleted by a large number of Shriners who are working hard to make the game a financial season.

All of the proceeds from the twenty-five cent lickets I go to the orippied kiddles, a lot of whom will be hand to watch their hockey heroes go through their nual paces.

Arrangements are under way to get a wel national athlete to referee the game. Gary 8 defensive halfback star of the Ottawa Rough Grey Cup winners, and a former Belleville been invited to efficiate.

National Roberty League clubs are behind the game see. The Mentreal Canadiene organisation has sent a deem subcraphed heckey titled. The Cheape Rickel Hawks has sent a half deem. The Terestic Maple Lands have notified Situriers that they will send along a doesn. There will be two doesn plain siche any diversities and the deem point notification.

There are some extra valuable prices that will be a by some lucky people or youngsters. The Bri-h American Oil Company, through Shriner George Inlosh, has donated a dozen regulation footballs.

Then autographed hockey sticks, pearls, and the fiotis will be given away as door prizes on the night of game. You have to be there to win one.

The price of the tickets is a measir twenty-five cents. They can be precured from any Shriner, po-liceman or fireman. You can help them less fortunate Middles by purchasing a ticket even if previous com-mitments or other reasons prevent you from at-

ATTENTION SENIOR CITIZENS

OF BELLEVILLE AND DISTRICT

Doctors', Surgeons', Osteopaths' FEES PAID

AGES 40 to 85

The Ontario Hospital Insurance Plan offers protection against the cost of essential HOSPITAL care, IT DOES NOT cover medical or surgical fees. The Transportation Insurance Company now offers a Physician and Surgeon coverage that pays doctors' bills for Senior Citizens of this area.

DO YOU CONSIDER YOURSELF UNINSURABLE?

Health may no longer mean that you must do without this vital protection. Special plans are now available which may COVER EVEN A RECURRENCE OF YOUR CONDITION.

This Special Plan Now Makes It Possible for You to Have This Vital Protection.

For further information, please fill out coupon and mail to your area representative, Mr. T. McBride, who will accept enrolment until March 15, Box 114, THE ONTARIO INTELLIGENCER. Address Phone Age Single []

The Bomarc Controversy This Bomare business is getting more than

a little contusing.

Briefly, if we have been able to stay on the straight and narrow! through the mass, the current sittlenton is as follows:

Bommer bases are being built at North Bay, Oharic, and Morth Laurier, Quotec, but as yet there is no formal agreement between the U.S. and Cannafs for the former country to provide the missiles to be set up at these bases.

The missaires to be set up as times used.

Even when such a formal agreement is signed—which may be shortly—there will remain the question of what type of warheads the missiles will, carry—conventional or nuclear.

The effectiveness of the Bomarcs would be

sharply reduced if they were equipped with con-ventional warheads instead of nuclear warheads

The Canadian and U.S. governments are deadlocked over control of nuclear war-ds. Prime Minister Diefenbaker has sald heads. Prime Minister Diefenbaker has sald that Canada will not accept for storage on her sail any nuclear warheads unless she can par-ticipate in joint control over their use. Existing American law requires that the U.S. exercise sole control and custody over American nuclear weapons, whether at home or abroad. heads.

Even if an acceptable compromise can be reached in this deadlock, it does not automatically follow that Canada would accept such nuclear warheads. The Prime Minister has gaid Canada will not accept nuclear warheads. out joint control but, as far as we can understand, he has not said Canada will accept such war-

only joint thinked on the second such such has not asked channed will accept such war-heads with joint control.

It is not difficult to division a reasonable compromise on control. The agreement might compromise on control. The agreement might of the control of the second to the se

Bub-aven it this comition is met, there will be a demand that the Canadian Government look long and hard at the inevitable consequences involved in even this meagre participation in the nuclear arms race. Once the present has been breached, it will be harder and harder to resist the quite natural demands of the various branches of the armed forces that they be equipped with the best available tools to do the job which they may be called upon to undertake.

If this leaves the reader as confused as ever about the Bomarcs, we can only offer our apologies and commiserations.

To Love Is to Forgive

"Many marriages could be saved if wedding yows were changed to 'Love, Honor and For-give'!" says an advertisement for a current issue of a popular magazine.

Isn't this one of those apparent profundities which, upon even the most superficial analysis, are unmasked as arrant nonsense masquerading in fine sentiments?

We are not here raising the question of we are not here raising the question of whether the wording of marriage vows, or any other types of pledge, has any significance whatever. This is not to quibble over the dif-ference between promise and performance.

ference between promise and performance.

Rather we want to suggest that the simple pledge to love and honor adequately covers all the essentials. Forgiving is certainly not the whole of loving, although he who truly forgives whole of loving, although he who truly, logives us displaying one of the most important aspects of love. On the other hand, can any person be said to truly love another if he or she handling to forgiver? Without loving him or her, so that the said of the sai

What a man looks for in a woman is some-thing, I daresay, like a good piano minus the loud pedal. What he looks for is tone, modulation, essential precision, music that is well composed, soft and lovely.—George Jean Na-

Tries 150 per west.

All in Canada 510.00 per year; \$ months \$0.00; \$ months \$1.50
and to U.S.a. \$10.00 per year;

there of The Canadian Daily Howenaper Association; Himshire of Canadian Process Months of the Adult Surveys of Condenses.

A Straight Look at Unemployment Hon. George Hees, Canada's Minister of Trade and Commerce, has taken a hard look at Canada's current employment situation. He has also proposed a solution which is neither unique nor, for a large number of Canadians to accept.

Mr. Hees proposes that Canadians will have to do today what Europeans have been doing for the past 15 years. This is for industry to operate with the fullest co-operation between management and labor. Immediately after the Second World War nearly every European country was faced with the problem of building up its econ-omy and its means of production. In many countries labor and management entered into an agreement whereby labor agreed to a strike-free period of four years and management agreed to regular wage increases based on the cost of living

This airangement proved eminently successful, so successful that it has been continued right up to the present. It has resulted, as Mr. Hees pointed out, in some nations, which had scant means of production 15 years ago, building up and surpassing the United States and Canada, both of whose production lines were at their peak of productive efficiency in 1945.

These European countries are now troubled only by not having enough laborers whilst unemployment has become an almost chronic feature of the North American economy. Whereas in these countries there is little employment problem and their citizens are enjoying a comproblem and their citizens'are enjoying a com-fortable way of life with an adequate income, in Canada there are many unemployed and not a few who are either earning too little or too much. European manufacturers are also hard put to produce enough goods for the world man-ket yet in Canada we find domestic manufac-turers crying for protection on our somewhat limited home market.

One of the main reasons for the lack of demand for Canadian products both at home and abroad is that they are too high priced. No matter how much other people may like Canada and Canadians they are not/prepared to buy from us when they can get a better price discounter.

us when they can get a better price elsewhere. It is obvious that if the unemployment situation is to be curred in Canada, work it going to have to be found or created through the sale of Canadian goods abroad at competitive prices and of competitive or better quality. This means that there will have to be a degree of co-operation and accord between Canadian man-agement and habor such as has here read-betor. If this sort of arrangement members the better. If this sort of arrangement seament is the source of the competition of the competition of the source of the competition of the source of the competition of the source of source worked out between labor and management it appears that there will be little else to look forward to other than a continuing period, and more extensive range, of unemployment. Cana-dians will have to be prepared to give up some of their luxuries in order to have food and

gheiter.

A spirit of co-operation similar to that experienced recently in a plant in Holland might be considered. The plant is safe rejected a management-proposed wage increase on the basis that they felt the raise would create a particular that they felt in raise would create a particular that they felt in the raise that they are the raise in the raise which are the raise in turn, a possibility of uperatoryment. bility of unemployment.

There is little sense in Canadians crying for more public works projects, for these must eventually dwindle in number. Even if every community in Canada needed a new Post Office community in Canada needed a new Feet Unites such projects would not provide enough jobs for times already laid off, much less those who are just entering the country's working force from the high schools. The government cannot do everything. It is up to the people, both labor and management, to do something for threa-sives, and not be do to a tenthing for threa-sives, and not be do to a tenthing or threa-

Co-operation, self-sacrifice and determina Co-operation, self-sacrifice and determina-tion are the answers to the challenge facility Canadians as Mr. Hees sees it. It is to be hoped that Canadians will pay close strettents to his words and take effective actions on his propos-ats. His matures and realistic payrisal of, and truly constructive solution for, the major prob-lem "facing Canadians today certainly warrants in the consideration and approval of all Canadians. one thing about his proposals—they have already been proven highly successful by some of the most industrious and progressive countries

The academic standards of many entrants into the profession nowadays set such that it is the serving of school meals for which they are best qualified.—Mr. T. E. Bell, addressing the Incorporated Association of Assistant Masters in Secondary Schools in England.

Habit Makes The Impossible Easy Says Syd

DEAR DORIS:—Every few days my husband goes on a nge, and it is getting worse. When he comes home he arest the children and they hide under the bed. He beets of up, and my sisters wonder acout my black eyes. I feel like calling the police—but this would ruin his states—BATTERED.

DEAR BATTEREL—Call for help while you can still use it. If your from has an Al-Asson group, seek it out use it. If you from has an Al-Asson group, seek it out who are learning together how to cope with the disease called alsoholism. Because it is a disease.

Falling this, you could move out, lock stock and barrel. One woman did, and habby was no jarred he was not been associated as the country of the country

reamy reformed. Either call Al-Anon, or the Children's Aid, or—if it is bad enough—move in with one of your sisters. Your husband has to learn, somehow, that for him alcohol is a poison.

DEAR DORIS:—I am 13 years of age. I have a nice by friend who likes me out every week, and now he wants to be you first a pile and the property of the propert

es ne up. I may not have soobsre chance—SHY FIFTEEM.

DEAS SHY PITEZEM—Does it also yourself shot. You
can learn to mix by mixing. If it's hard to get the know
people now, what are you going to be like also you've
limited yourself to one boy for, say, a year or twe?

Now is your time to get soon precitic at both
Mow is your time to get soon precitic at both
groups which will welcome you and enlarge your circle
of acquaintances. The first plungs it to boughest.

If your boy friend likes you wall enough he will
know balking you out, and the threat of a little competition.

Being sole to go steady at 13 is a questionable privilier.

(DORIS CLARK WILL BE GLAD TO HELP YOU WITH YOUR PROBLEMS. WRITE TO HER CARE OF THIS PAPER, ENCLOSING A STAMPED, SELF-ADDRESSED ENVELOPE).

Sport Slices ...

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor

one of professional hockey's best-known figures might apply for a job as an astronaut, or a permanent on in Detroit where he can live under the shadow city Jolly Jewn Adams and his Red Wings.

French Canadien and other stannch followers of the Montreal Canadiens hereabouts were stunned (if protoste via a half-doesn phone calls to this agent is a criterion) when the story broke that Frank Solky, general manager of the Habitants, had stated that Gordie Howe "is the greatest all-round player in the history of hookty."

Poever quit reading the weakly series of the "Old Receipt Book," let jut a couple of morts like a disap-pointed rhinoceroe in the mating season, and declared to all and sundry "The guy is rosts."

The Howe-Richard question has provided argument fodder for many a crecker-barrel season. A lot of it can be put at the door of the keysity but coming from a wall-known authority like Rr. Selke-well—that is definitely a horse of another color.

. Big Jack Adams, bearman of the Red Wings who has been annefficing in bull-moose stage whitpers the same statement for lo, these many years, probably settled down in the cosy armchair and gurgled happily

Mr. Schr's glaisment was: "Gordle Howe is the greatest all-round player in the history of backey, the's the composite of some mighty fine stars. Fre-been watching the game as fan and official since the list 180%. Fre never some anyone combine so many faculties. He's simply the greatest."

"I'm not taking away anything from the Bocket, e any other outstanding player when I say thin," life, clike added. "Maurice was the game's greatest crowd-leaser, most speciacular geal-griter. But Hows can o more than any other player that ever lived. And know the Rocket feels the same way."

Knowing Mr. Selko and his outstanding reputation a hockey authority, I will go along with that but there thousands of Canadiens cans who will not agree.

Solite was rather lavish in his peaks of the big troit winger. "Howe has an amazing ability to co himselt. His big neste are his almost super-man strength, powerful wrists, peaking and playmak-r, shooting and silekhandilms. There doesn't seem be a thing Gordie can't de except sit on the beach

"Another thing," Mr. Selke said, "Howe is no pairs."
He is one of the roughest players in the league. Ask
any of his opponents. He's get more elbows than an
octopus, if an octopus has elbows. But he's a smoothle
and the referese have trouble estehing him!

"Beliveau is a player of Howe's smooth style, but he en't have Howe's stamina." Whoops, Paul and Andre, "t pull the triggers yet.

over his tonn-masse."
"Faure this zhou Hope and Richard." Solke said, "Although they were such frision on a rich sa well said, "Although they were such frision on a rich sa well as the for restress players in a desol, they from a miratal similarited society. Maurice says he has inverse blysic spirits of the proposed. He's one who thinks Gordin should take it sactor, play less and sixy in the game forcer. Right now? I say the Rocket is Row's president booster. Till bell Defroit fans worth believe Said.

Dentists Are Scarce

Next week is National Realth Week and one day has been set aside as "Dental Health Day." Here in Believille the dwindling number of dentists who serve a growing population think that citizens would do well, on that day or some other, to give heed to a situation which, already

serious, threatens to grow steadily worse.

Dr. R. W. Edwards, secretary of the Bay of Quinte Dental Society, informs us that it is becoming almost impossible for newcomers to this city and district to win acceptance as patients of any dentist here—all ten memb the profession here are much too busy and find it difficult to accept new patients even if they are willing to wait as long as aix months. In Trenton, he adds, the situation is even worse. When Believille was a city of 15,000 people, he says, it had 15 dentists. Today, when the city's population is 28,000, almost double, the number of dentists has declined by a third. There should be at least one dentist to every 1,200 people, says Dr. Edwards. In Canada the ratio, people, says Dr. Edwards. In Canada the ratio one of the worst in the civilized world, 4s one dentist to 3,100 people. The ratio of dentists in Belleville to citizens in Belleville to citizens in The three serve more people from outside the city than from within 1t—since so many smaller centres have lost their dentists and will, apparently, never gain replacements.

never gain replacements.
The Bay of Quinte Dental Society sees two
methods of alleviating the situation—prevention
of tooth decay and the recruitment of more

dentists.

The first objective, as one might guess, involves advocacy of fluoridation of the drinking water in Seligibile. It is ten years aimse the Society first-passed a resolution urging such action and it is argued that had the work been reduced by the selicity of t

The second approach involves informing secondary school students of the advantages of duntistry as a profession. Ab-pragent half the University of Toronto graduates in this profession come from Toronto and tend to practise there. It is therefore fells more dental students beautiful to account in the workler fells. should be sought in the smaller cities. So the Society is sponsoring a dinner in Hotel Quinte Friday evening, when Dr. Stewart A. MacGregor, head of the Department of Pac-dontics at the Faculty of Dentistry, University of Toronto, will address a group of some 45 local students who have indicated their interest in dentistry as a career.

401 Gaps Being Closed

All things come to those who wait—and one of the advantages of growing older is that awaited things seem to come faster.

awaited things seem to come laster.

Can it-raily be several years ago that we in this district were complaining about the slow rate of progress being made in the construction of Highway 401—then, to most of us, only a name designating a dream super-highway which was destined, eventually, to run the full breadth of Southern Ontario?

Here we are, in this year of grace 1961,

with 401 to the east of uses of grace 1981, with 401 to the east of us and 401 to the west of us, while the trucks and sheep's-foot rollers and paving machine rumble and thunder.

To the west, there remains only the opening of the Pert Bloop-Brighton gap to provide us with a four-iane divided highway all the way to Trountol—and a considerable distances beyond, a considerable distances beyond, a standard of the three three construction of the standard gaps between Belleville and those stretches of 401 which were constructed in the Cornwall, area at the time when the construction of the St. Lawrence Beavay and power project engulded partions of add, winding No. 2.

St. Lawrence Beavay and power polect engulded partions of add, winding No. 2.

Belleville present of the Belleville prepass, two miles west of Manyaville, and Napanes. And this year a start will be made on paying that

two miles west of Marysville, and Napanee. And this year a start will be made on paving that section of 401 which lies between Napanee and

It will be a little while yet before the dream It will be a little waite yet octors age ureaus of a Windson-Montreal four-lane road becomes a fact—and co-operation from Quebec and some rebuilding of the stretch of 401 constructed earlier west of Cornwall will be necessary. But the gaps are filling up surprisingly quickly—or is it but that the years have speeded up in their

To many people, dramatic criticism must seem like an attempt to tattoo soap bubbles.—
John Mason Brown.

Sport Slices ...

RARE, MEDIUM, WELL-DONE By GEO. H. CARVER, Sports Editor

If any of Warbling "Warpy" O'Brien's Smokies or Clare Hayes' Handcuffers have any puglikito lifeas about tomorrow night's puck firsts in Memorial, Arens here's a the—forget them.

If they don't they'll be gettin' the land that iver came out o' Glocksmorn

And that post five the two managers, too. Mixtee And that post five the two managers, too. Mixtee "Prices had better forest his resist-randomyor below the post of the state of the state of the state of the thought "O'Hayer" just for the everalist. For there's a below as as Inheer sooning been to referre the pook party below sizes of by the police and the fremen symboleum and no below-could when-ter the policy of the policy of the policy of the tent tabled with a name like this cont.

His name is an horsered one among the class of could sod. He has more namesakes on New York's Fin than any other Irisher who has breathed the perfume Kullsmoy's lakes or nuzzled his navourneen as the s slowly sank over Galway Bay.

yowly sank over tearway ney.

Il is Frank Clancy, otherwise known as "King," ansistant general manager of the Toronio Maple Leafs, the only "undefeated" National Hocker League coach of the year, former NIEL referee and one of the sturdlest, fightenest, understied hardrocks that ever bounced a forman back to his side of the blittine.

The lineable little-frielment with the building face and ingisting courage of John Builfs pet pooch, promised selected lakes Allin and Nobles Goorge Musler and Lee Bliler of the Shrine Club, that he would not let them my when they requested a Majoic Leaf representative officiates at the Crippied Kiddies' hockey game.

"Til do my best," he said, "and if I cannot find schooly to come to Belleville then Til come my-

That, mes amis, is exactly what happened

But the King is not coming without some kind of a court. He is being squired by another name innous in Toronto Halbe Leaf bookry annals, one Gas Morteon. Gas will be around just in case some of the Priots and Scote in the amfience or hargis-happy and skert herather the action of the claim Clancy.

Indigentially, we are informed Gus will become a permanent resident of this city. He will be the as-sistant to Striner Goorgy Maclier, recently named superintendent of the new Freezer Queen of Canada plant which statrs operations after next city sure all sportions on the city joint and the sure ware all sportions on the city joint and fatter citizen.

Gary Schrieder was keenly disappointed that he alon't make the trip, but former commitments prevent-him from putting in an appearance.

"Tell the fine people of Belleville I am truly sor-ry I cannot be there, but please do not forget to ask me if something of a similar nature crops up. I shall be delighted to come and do anything I can to help the kiddles," Gary told Shriner Allin.

And you good people out there don't forget to trop around the arena around eight o'clock tomorrow light when the police and firemen stage their annual or frolk with benefit of pack and stick.

Then there are those autographed hockey sticks from Lesfs, Canadiens and Black Hawks, not to mention dozen "plain" sticks and two dozen sets of pearl claces, all given away to lucky ticket holders.

Admission is twenty-five cents but you had bet-ier get a ticket if you want to get in on the draw. These can be precured from any Shriner, Police Of-

Every cent of your quarter will go to the kiddies yers, officials, averybody concerned are giving their vices free to help the youngsters.

How about you? Want to help?

Death of a Comedian

The death of a British comedian, George Formby, at the age of 56, will undoubtedly leave a number of folk from "over there" sadder at having lost one of the most entertaining comed ians in years.

dians should remember him also as a man with a big heart. It was during the Winnipeg flood relief campaign that Canadians got a chance to know this man when he donated his services for the marathon fund-raising radio show put on by the CBC. There were a lot of big-name stars from show business, certainly a great number of stars better known to North Americans than the small but cheerful English-

man with the banjo and the buck-toothed smile. Each was allotted 15 minutes, to do his bit for the fund-raising drive held before the thous-ands crowded into the Maple Leaf gardens. The show progressed as one big name after another stepped up, did his bit, received his accolade of applause and then retired after his quarter-hour.

Then up stepped the little Englishman, virt-Then up stepped the little Englishman, virtually unknown except to those recent immigrants from the United Kingdom, and swept his audience off their feet with his accented voice and bouncy banjo rhythm. He hadt their attended on the state of an hour as request after request power in tender another. When he finally stepped down to make way for the regk of the show it was not with the crowd's approvad. For them and for the many radio listeners he had undoubtedly made the show. For the little Englishman it be Englishman its.

the many rando insteners he had undoubtedly de the show. For the little Englishman it is one of his finest hours. He will certainly be remembered by many o served overseas in World War II also, for finade endless tours of the various theatres of war to bring a cheery sone and a joke to the servicemen. Although his personal life held an element of tragedy in it, his big heart saw him come smiling through. His talent and his com-passion for his fellowmen were two things which George Furmby held in great abundance It is to his lasting credit that he always en-deavored to share both with his fellowmen, to

the best of his ability.

Although his talent as a comedian is preserved on records his talent as a warm-hearted individual must, of necessity, be remembered in the minds and hearts of the Canadians and others who were cheered or benefited by his thoughtfulness for others. The world has lost a very warm-hearted in-

dividual and comedian.

Rail Transport Solution Near?

In the very forefront of Canada's economic problems at the present time is the need for a lasting solution to the chronic financial problems of Canada's railways.

lems of Canada's railways.

There is reason to expect that a solution to the financial problems of rail transport in Canada will be found in the agerty-awated report of the MacPherson Royal Commission. For nearly two years the Comission has been engaged in an exhaustive study of the railway problem. The thoroughness with which the Commission has probed into the important learned of the commission reason with which the problem. The first of 1809, indicates an extra water at the part of the Commissioners of the urgent need to afford the railways relief from this most burdensome and difficult of their problems. Certain it is that Canada's meed for efficient.

Certain it is that Canada's need for efficient rail services will remain in jeopardy so long as the railways are required to move export grain—making up more than one-fourth of all the treight hauled-at 1899 rates in the face of 1961

If the MacPherson Royal Commission makes positive recommendations for a solution to this problem—as it undoubtedly must—it will have done Canadians a notable service. Relief from the staggering financial burden of the statutory grain freight rates will give the railways the opportunity they so desperately need to compete on terms of equality with other forms of trans-

NEW HOPE

There is hope for those who are loaing their teeth. It's possible there may soon be a tooth bank in Ganada. Italian stomstologists-recently transplanted the embryonic root of a wisdom tooth into the eggly sected of a patient's own mouth. A new tooth appeared in a few months. U.S. and Ganadian experiments now seek to transplant live teeth from one person to souther also—(Brochrille Recorder.)

Sport Slices ...

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor

Cenire Manings, the last of the Maple Lent samm' gealfs gladiators, unlike the ancient Cases ribe was the first ingrest for Bretzer darks tone, were ack with a whole hide, some National Hocky Longu-apericos, and a tag bearing the Insertption "Marke are the Februs".

But this department's bet is that the long alimitim of the spice won't linger too long with the secondary professional companies. A rank raw roakie as far as National Hockey Leave residency, he left enough impression behind him to mark him topflight material for an NILL job in the not loo distant practice.

As every senior hockey fas knows, Maniago was kikked areund freen pillar to post in the dying year of the late lamented senior "A" hockey Isague. He played for marry every team in the Isos, winding up being one of the main cops in the Chatham Maroons Allian Cup machinery.

Auss the mecounty.

During Cesure's brief tenure as a goalie here, I talked
with him in his room in the Queen Hotel. Extracting
the information that he had a secret ambition to play in
the NRL was like pulling an elephant's wisdom tooth.
For Cesure was modest almost to skyness when lalking of

But with startiling frankness he said, "I know that I need experience if I am to go anywhere. The boys are goed to me. They help me, copecially those with pre experience. They fail me what I am not doing ritch—and I like it. But I causes afford to sit on the brach. I feel that work and more work to the gateway to experience and to higher places."

And his natural hunger for "work and experience" s probably the reason he left the Western Hockey gue and returned to Sufbury last winter. It seems club he was playing for out there decided on the ternate goalic" idea, and that did not sit well with

Then came the hig break. When Bower was in-jured the Leafs called Gerry McNamara. He, too, was hurl, and Cesare got his chance,

You know the rest. He played sensationally in his den game, beating Detroit 3-1, stopping 38 shots, while it Bassen in the opposing nets handled 16.

and assent by the opposing new handled it.

A story in the Heckey News grist "The new Cearse
who came to see Termio and stayed to conquer, cal
one of the greatest orations ever seconded a recalin
debut. He was coal under fire, almost cocky at times,
concluding this story and laying it on top of the
concluding of this story and laying it on top of the
defi hand, which, mared has thete."

Coure is back with Sudbury, but I believe the tilenal Heekey League snipers have not seen the last this tall gangling youngster who won his spurs in a under-fire debut in the big time.

And if and when he does don the blue of the Leafs as their permanent goalle—well—it couldn't happen to a nioer guy than Course Maniage

Due to a telephone minunderstanding this column reported yesterday that Gus Mortgen, former Misple Leat, who will be here with King Caisory at longists policies who will be here with King Caisory at longists policies intended of the size Freezer Queen Commission and intended of the size Freezer Queen Commercial sain manager for Outston for the company with handquarters in Toronto. My dry statess applied to Gus, and thusin to Schirer Goroger of the commercial commercial sain manager plant for setting the record right.

Coyne Persistent

James Coyne, who may not be right but is admirably persistent and consistent; carried his crusade for Canadian economic independence into new territory on Tuesday, speaking at the Economic Club in New York.

Coppe, Governor of the Bank of Canada, maintains that we Canadians have been living beyond our means, that we have done this by borrowing abroad and that, in the long run, this is bad for us.

Put like that, his theory appears reason-

There are, however, other ways of saying the same thing, and those who differ with Coyne say that our economic expansion has only been made possible by foreign investment.

One would have supposed that the members of the Economic Club in New York would be more likely to favor the latter than the former viewpoint. Mr. Copne, however, brought out one phase of Canada's problem in dramatic

.He presented figures to show that in the last eleven years Canada's trade deficit with the U.S. was \$12,000,000,000, while the U.S. trade deficit with all other countries was only \$1,000,000,000.

This ought to have impressed his audience. Another way of saying the same thing is that Canada, with only a tenth of the U.S. population, had a trade deficit with the U.S. twelve times larger than the U.S. had with all the rest of the world.

Or, to put it yet another way, the US trade surplus of \$11,000,000,000, or an arerage of \$1,000,0000 a year for the past eleven years, was entirely due to its trade surplus with Canada. In other words, all the US. good fortune in trade is Canada's bad fortune.

Even those who differ with Mr. Coyne must have been impressed by the fact that he has

Something to Strike About

Taking pot shots at Cupid is something akin to kicking a mule. If the object of the attack objects, one is likely to discover that the return

objects, one is likely to discover that the return salve is-devasting, being the product of a higher level of technological achievement. Anybody who has been kicked by a mule will appreciate the point we are trying to make. Cupid, though, may have a more kindly daposition and perhaps has squelched the temp-siation to let an arrow fly in the direction of the Financial Post editorial writer who recently let

him have both barrels, in passing, so to speak.

The Financial Post was building up quite a case against the irresponsibility of airline flight engineers in the U.S., who recently staged

night engineers in the U.S.; who recently staged a strike as the result of and we quote, "a power struggle between two unions."

Then, as an aside, the editorial observed: "Nobody who rides the airlines forgets that the basic issue in another recent flyer strike was an airline order that their pilots must stop 'dating' the stewardesses.'

The inference is plain. This strike, too, in the opinion of the editorial writer, who we sus-

the opinion of the editorial writer, who we suspect is aging as well as being a non-pilot, was over an ingonsequential matter.

All we can say, after seeing a few airline stewardesses, is that any man who had been enlying the privilege of dating them, and who then had this privilegy vetoed by its employer, would have water in his veins instead of blood off in did not lake infinediate and drastic action.

This is one softle which involved a truly marked the property of the p

basic issue. Compared to the right to date a pretty girl, of what importance are such things as pension plans, statutory holidays, overtime rates and all the other trivialities which so often

rates and all the other trivialities which so often clutter up labor disputes?

Bad to relate, we overlooked this strike in the welter of other news developments and we do not even know whether the pilots won their

appeal for simple justice with nine paragraphs already written?

The public buys its opinions as it buys its meat, or takes in its milk, on the principle that it is chenper to do this than to keep a cow. So it is, but the milk is more likely to be watered. Samuel Butler.

When a woman marries again it is because ane detested her first husband. When a man marries again, it is because he adored his first wife. Women try their luck; men risk theirs.

—Oscar Wilde.

Frogmen May Farm Sea

By E. R. Yarham, F.R.Q.S.

The biggest, problem with which man is faced a how to feed the world's multiplying millions. These have now a compared to the second another two mouths and the century the world's population is likely in be around 6,000 million, double what it is to-day.

and zero these two totals and zero these two totals and the special covers 141 million and the common total covers 141 million the common total covers 141 million the covers 141 million the covers 141 million the covers 141 million total covers 1

The primary survey of too's for the desirence of the century and the primary of the primary of the primary of the century of the century of the century priest of the century priest for the century priest fo

Sport Slices ...

RARE, MEDIUM, WELL-DONE By GEO. H. CARVER, Sports Editor

The self-styled "best team to represent Canada turops for the past ten years" has its back to the t with the second chance in three of winning the lift champlesship.

As this is being permed they're crossing hockey fers with the Finns. Let's hope they pile up a wide rgin just in case the title is decided on geals-fer-ingainst backs.

don't hold your breath until it happens. The most let that rest in the hands of the hodes I concentrate on winning that hig one tomorrow

If they defeat the Smokles they will regain some loss stige in being the only club to defeat the Canadians at the same time they will be practically handing the rich crown to their cousins from Czechoslovalda pe-sing the Czechs turn back Sweden and Zaet Germany.

So come on, you Smake Kasiers, rack 'one up and 'one down. You can heat the Reds, but while 're deling it my 'namen' to the yeavers that are another from Ingy Johnson's comp—that the gods aport will mails upon Sweden.

Unpleasant Medicine But Necessary

Unpreasant Medicine Bull Necessary
Now that the first sting of the Ontario sales
far has subsided, we may perhaps be ready to
conside it relationally.

First, let 8 be itemediately admitted that a
case tax at the retail level a a nuteance and
that, desgate the remodiate effects of exemptions
for showstites, it often imposes increasal bursten,
the files very reason that the tax falls equally on
equipped to carry this furnits.

Once that it said, though, we ought to sair
Complete Now quotificant. Firstly was an increase

Once that is said, though, we ought to ake fourselves two questions. Firstly, was an increase in texasion necessary? Secondry, if the first question is answered in the affirmative, what alternate methods of rathing the necessary extra alternate methods of rathing the necessary extra contract of the co after the fact that no wise man would suggest that we continue indefinitely spending so much hare for government services than the government takes in taxes.

ment takes in taxes.

It may be suggested that an alternative to increased taxation would be to reduce expenditure. Many will espouse this view—but there will be little unanimity as to what services could

The truth of the matter is that the greate The truth of the matter's that the greater the wealth of any nation, the higher proportion of this wealth it can afford to divert into "social capital" expenditures. The poor nation may be able to spend very little, because its people the property of the need almost all they earn to keep themselves fed, clothed, housed and warm. Once these essentials are provided, though, we have the choice between spending the rest on private or public needs.

In the main, the Ontario Government does not waste its money. We have siready agreed that it could not continue indefinitely spending so much more than it raised by taxes—even with the sales tax our net capital debt will continue to increase.

such the Saise star. Our net capital deet will combine to increased evenue had to be obtained to some manner. This means that those who object to the saise tax—and that will almost certainly mean the great majority of Octario efficient—must suggest some alternative source of revenue. Here, as with any suggestion that services be curtailed, we shall find a striking lack of manningly regarding proceeding the star of the saise tax abound be increased. Some will suggest an increase in laces on liquor, or in the sais price forms in the saise price fax, some may think that gasoline could carry a even heavier tax, some will savocate entire succession duties and, some will advocate entire succession duties and, some will savocate entire succession duties and, some will advocate entire succession duties and some will advocate entire succession duties and some will advocate entire tax, some may think that gasoline out of the entire tax and the succession duties and some will advocate entire tax.

The plain and unpleasant truth may well be that the sales tax was the only feasible that the sales tax was the only feasible hod of raising additional revenue to the tune of \$150,000,000 a year.

Big Government -- Still Growing

DIG GOVERNMENT -- SIIII Growing
The number of persons on the Federal
Government's payroll last December, according
to the Dominion Bureau of Statistics, totalied
337,042. Twelve months earlier, the figure was
about the same, with 337,089 persons employed
by the Government and its agencies and proprising corporations.
On the face of it, one might conclude that

presony exportaneous.

On the face of it, one might conclude that the control to turbing the growth and cost of government has

little meaning.

If the tax cuts to stimulate economic represery are to be achieved. Finance Minister Firming and his Cabinet colleagues are going to have to exercise stricter fiscal discipline than they have up to the present time.

We Help Balance Your Budget ...

The wise management of household funds is mostly a matter of knowing what, when and where to buy to your best advantage. This calls for accurate, up-to-the-minute information, which you can get most conveniently in this paper!

, O

Is keeping your household budget in balance one of your principal problems? You can find plenty of practical help in solving it in the pages of this newspaper. News of seasonal trends in food prices will help you to plan your menus more thriftily . . . even stock up for weeks ahead at savings (if you have a freezer). Sew-it-yourself suggestions can help you reduce family wardrobe costs. Home improvement hints can help you fix up your home for less money than you may have expected. And be sure to keep a keen eye on the advertising columns, too, because that's where you'll find the first news of the best buys in practically everything your family needs or wants. The more you know about price trends and values, the better you can buy . . . and the best place to get the most information of this kind fastest is in the pages of this news-

"Most Marvelous Tool"

"I do not know of a nicer gift to give a Canadian than to offer him the most man us tool that human genius has fabricated the expression of thought—the French lan

That triting seminos is taken from remarks made by Premier dean Lesage of Quideo, in introducing a bill in the Quebe Leptalsture to set up a cultural affairs ministry.

Many English-speaking Canadians may find Premier Lesage's view startling. Many of us, and particularly those of us who are in the habit of working with words in any form, habitally rail at the English language and its many oddities of graumars and spelling—but despite these criticisms we have surveys regarded to the complete of the complet of its idioms

It will come as rather a surprise to many us to hear French extolled as "the most swellous tool" for the expression of human thought.

Yet Premier Lesage, fluent in both tongues, is much better equipped to judge between Eng-lish and French than the vast majority of English-speaking Canadians.

Ish-speaking Canadians.

Perhaps he is prejudiced? Of course he is. But who isn'!? Vladimir Nabokov, who wrose the controversal "Loilia" in exquiste English, is still on record as mourning the fact that fats his still on record as mourning the fact that fats his said with the said never been matched.

never been matched.

Even those attributes of a language which
others regard as handicaps may, to the native
appear as writtes. The other day we were sibliing to three German-Canadians. One spokes
slightingly of the average Canadian's common
of English and remarked that even he, who had
been been collecting to the service of the collection of the collection. been here only a few years, had a better knowledge of the English vocabulary than most Cansedge of the English vocabulary than most Canadians—and so he did. Another said something like this: "What I cannot understand is how a people like you, who are educated and well informed like us (the German), would tolerate a language on lacking in precision." What he mourned war-the fact that in English he could not build up, scientifically, a word with the east inequising he required—he was praising many smaller words, which to our English tastes appear atrocities. One man's language, like one man's mest, seems to be another man's poten.

The Harsh Tax on Pensions

Ine Harsh lax on Pensions
Canadians who live on pensions are not,
in the main, rich. But this countrys tax
laws have the unfortunate effect of making the
dependents of pensioners far worse off than
those in other countries.

Conspler, for example, the effect of the
Estate Tax Act of 1-888, which treats pensions
as a capital inheritance. This has the effect
of creating an unrealistic and artificially high
value of an estate, to the detrimmit and hardship of those very dependent whose welfare the
family breadwinner, during his lifetime, saved
to protect.

A pension benefit under a life insurance a pension benefit under a life insurance annuity, for example, is not an "asset" upon which the beneficiary can realize. People cannot sell their pensions when they need money, as they can a car or a piece of real

Yet for inheritance tax purposes, the pen-sion is treated just as if it really were the same as a piece of property, or a portfolio of market-able stocks or bonds.

able stocks or bonds.

No such tax iaws exist in the United States
There pennion annutities are not "capitalized"
for inheritance tax purposes. But in Canada,
a pension is subject to both inheritance tax and
mome tax. Canada's inheritance tax on pensions drives some senior elitisens to leave home
to protect their dependents from need.
Here, surely, is one supect of Canada's tax
laws that is, in desperate need of overhaul.

That's the nature of women , , , not to love when we love them, and to love when we love them not—Miguel de Cervantes in Dom Quixote.

Just Feast on Her Lips

Strictly Personal Superlatives Are Losina Their Lustre

By SYDNEY J. HARRIS by sylvente of manual writer of legins, there is a law of ninishing returns in communities as well as in economics at is, words tend to yield a taller nontent as they're used

Sport Slices ...

RARE, MEDIUM, WELL-DONE By GEO. H. CARVER, Sports Editor

The weepers and wallers that drenched the sports as a year ago when we dropped a squeaker to a fired-Yankee squad are back again on Happy Street.

Down Chatham way, some of the boys, pa Marsons, are nibbling a little crow-and tment swallowed a small piece, too.

and I am not ashemed to admit it, altho-better garnished with Smoke Bater sau

Oversean news desputches quoted the Smokles che Bobble Krussus; "This is the best club to repent Canada in ten years." On another econolous, and a during the insynament, "We haven't played a good on yet---we will when the time convex," or words to it effect.

is my opinion, and I make the sintenent at the k of being debbed a traine—the best club ever to recent Canada in world backer competition was the nikely Dunlays of 1935 faune. The second best, by a Mc—OK, I'm a "homes"—was the McFarianda.

The Smakine were "up" for this one. There after the first few minutes and never looked d. They saited away enough goals to clin mannest title (by goals average), then it app played defensive hockey.

They lived up to their statement, "we'll play a good game of locker when the time comes." But it look a great big Cucch needle to help them regain the heights of ability.

negma or actury.

This Ottos inpund was the big apple-cart upseider of
the internament. They were pre-increased choices
to shall high behold Canada and Rund. True they
had defeated Rundan sepands bride in Mesone—but
who hadn't! That was pure programatic. Busides
they did not meet the Eustian nationals before ingernament face-ord. The first the light feed found that of
suppose in international competition prior to the bidefirst at Laumano and Genera.

South Africa Decides To Quit Commonwealth

Withdraws Application To Remain a Member

LONDON (Reuters)—South Africa today w

draw its application to continue as a member of the British Commonwealth.

The surprise more by South African Prime Minister Hendrik Vernoerd came after three days of heated debate by leaders of the family of nations over his country's aparthel segregation polley.

South Africa's application for continued membership had been made necessary by the fact that it will become a republic May 31.

History Repeats Itself

Monday the prime ministers of the British formmonwealth of Nations voted to iscope Oppurs as the thirteenth member of the Com-monwealth. They sent a message to President stablishop Makarios inviting him to fly from Oppurs for the remaining sessions of their con-

We have here a happy ending to a tale of citife and dissension. The temptation arises to make much or this transformation, to sing the plates of the Commonwealth spirit of tolerance which results in ready acceptance into membership of a newly-independent territory which fought for this independence with every available weapon, including all those in the areenal of terrorism. It would be no easy to prake both the British Government and Archidalop Makaries for readiness to let byegones be byegones. One could paint a rosy picture of the ruture. But the same day that Cyprus was admitted.

But the same day that Cyprus was admitted, the Commonwealth ministers were debating whether South Africa should be thrown out. And whether South Africa should be thrown out. And one remembers that half a century ago, after the Boer War, all the happy phrases which are now applicable to the reconciliation of Cyprus and Britain were being used about the British and the Boers.

and the Boers.

Time solves some problems—but not all, not irrevocably. Meanwhile, let us be thankful for present mercles and hopeful that the Cypricks path in coming years will not bring the wheel full circle to re-create that spittle of discord which has been so happily, and so recently, banished from this Mediterranean islands—

The Passing of the Individualist

With the recent passing of Sir Thomas Beecham the world lost another of its most valuable natural resources, an individual. For the past half-century people have been delighted or shocked by the activities of this extremely lively person who cared not a wit for conform-ity and was only too delighted when he joited ers out of a rut.

others out of a rut.

The stories of this talented conductor of symphony and opera are legion and each serves to reveal some fascinating factor of his dynamic personality. Earst, position or stination were need in awe by him and he was always ready to prick or biast any of the sacred constitution of our society if conditions warranted it.

the will probably be best remembered for the great musician and conductor that he was, although we feel that his most important con-tribution to the world was to inject his person-ality into so many of the otherwise humdrum affairs in which too many of us are wont to

status in which too many of us are wont to receive the second of the sec

Note from Mysterious East

Canadians will be asked a great many questions, including one on ancestry, in next June's census. The sanwers, "when analyzed, should fell a lot about the Canadian "mix," and perhaps note that some Canadians had, an Irish-Dan'sh great-great-grandiather who was born a French ship bound from England for Viron a French ship bound from England for Viron

But Canada's census won't be quite as re-vealing as that which started in India this

inumerators counting 450,000,000 Indian nosts will ask those who don't work for a living to declare their category. Are they "full-time students, housewives, dependents, retired persons, convicts or beggars?" They can't be chocsers:

The mysterious East divides its society in a mysterious way. (Financial Post)?

A creditor is worse than a master; for a master owns only your person, a creditor owns your dignity, and can belabor it.—Victor Hugo.

Great news in dust mops!

ZOOM-A-LON is the modern mop . . . a mop that can't mat or tat no matter how often you use or wash it . . . a mop with magno-static action that actually attracts the dust, then shakes it free with a flick of the wrist.

Next time you shop for an O-Cedar mop ask for 200M-A-LON, it's the miracle fibre that picks up all the fine particles left behind by ordinary mops.

RARE, MEDIUM, WELL-DONE By GEO. H. CARVER, Sports Editor

With beechall in the city shaking off its seven-ye obtabile with the entry of the Belleville Kenmore in the state of the control in the sunnal convention of the Orber assistant Association shated for Kitchener this weekend

However, through his long association with the OBA and his outstanding work both on committees and field administration. Carnon is extremely popular with Western Ontario baseball mgn as well as those of other

I have been told by those who know him a lot better m a baseball point of view that Jack has all the qualities construct for the chain at the head of the board table, brooks no favors and his decisions are made with more with all points of view taken into consideration.

He has a friendly affable disposition that has made him a host of friends, but never allows sentiment to enter into matters of business, baseball, or otherwise. He has the happy faculty of being able to take actrice as well as give it, but as not a few have discovered, he cannot be "pushed

He fights hard for what he believes is right and during his tenure of office on the executive of the ORA has sixtrum for the bettegnant of the association as a whole. He has a tremendens capacity for work as the ORA knows, and this with his know-how of baseball problems and disastions, abould stand him in good stead when the hallots are cast next Saturday.

The Wellington Amsieur Athlette Association, how-ever, is endesvering to have the number of executive verse and the second of the second of the con-traction of the second of the second of the constitution with a second of the second of the belleves that the north, seeth, earl and west areas of the prevince should be represented on the executive. Deléctrically the WAAA has nominated Walter Nind for an executive galaxy.

The Belleville District Softball League is having expansion pains too. President Harry Morgan who systicate or expansion to a highly successful season last year; has called the second meeting of the year of Se Sunday and it is expected something definite of an entry nature will be ferthcoming.

Prexy Perkins paid a fine tribute to his vice-president.

Don Lee for an excellent job done as based of the association sub-committee. All softball men appreciated the fine work done by Mr. Lee and also Art Baker of the Rules Committee, he said.

Welcome News

The announcement by the Canadian National Railways that Belleville will be the head-quarters of the new Rideau Area of the CNR was the best of new. Even better than the announcement of a new industry is this assurance that Allerian ance that Belleville will keep an old one, that there is, to be no abrupt end of the tradition which for so many years has seen Belleville proud to be known as a ráilroad town.

When the CNR first amounced its inten-tion of abolishing the old divisions and establishing game, larger areas, there was considerable gloom here. The net result, though, has been to enlarge, rather than to diminish, Belleville's place in the scheme of things.

It is true that this does not mean that there will be any increase worth mentioning in the number of people employed here by the CNR—30 office employees will be added, but the lynesent staff of some 850 here is only half what it was just a short time ago. What is important is that the reduction in the number of CNR employees here will not be accontanted by the end of the old divisions and that, the future sees of the country of the count It is true that this does not mean that there pers—Bellevi this growth.

With all Relieville citizens we join in welcoming Mr. J. A Pollock manager of the new
Rideau Area, to our midst. We wish him a
long and happy stay here. Congratuations are
in order, too, for those old cifficials of the
division who have been promoted to serve in a
larger field in the new area, to A. R. Wilson,
the former division superintendent who will be
operations manager of the area, to J. A. Lomassuperintendent of transportation, O. A. Van de
Water, area engineer, and W. G. Parry, area office
supervisor, and a welcome, too, to the rultimoders
player the server of the relieve to the rultimoders
join them as members of Mr. Pollock's managerent team. We wish them all lock, movening
that if they and the CNIR enjoy good fortune
pgligittle will share in it, in the future as it has
in the past. With all Belleville citizens we join in wel

Straight Talk From Mr. Nowlan

orienged talk from Mr. Nowlân. The was, just a few years ago, when it was the wont of politicians to claim that they knew all the answers to Canadrie common problems. "Buili-in" economic stabilizers, in the form of transfer payments and other social security measures, it was and; would assure a continuous high level of employment and freedom from economic worries of all kinds.

onomic worries of all kinds.
Today, to its credit, the Canadian Government is making no such claims—claims which, incidentally, givers had any real foundation in fact. As Revenue Minister Nowlan put it so apity in a rocent address at London, Otatato, "No amount of state planning, or the mouthing of potitical nostrums, will solve our problems. They will only be overcome by leadership, good composition of the contract of the con

Mr. Nowlan is right. The coercion of state Mr. Advana is right. "The coerciou or state socialism is no answer to Canada's economic problems. The responsibility of government, contrary to popular belief; is not to provide jobs, but to create an economic climate favorable to business and industrial expansion, thus generating needed employment opportunities for Canada's jobiess.

ana's jobies.

"Bullt-in" stabilisers and other economic nostrums, in the final analysis, rest on high taxation. High taxation, the internation of the internation of

of job opportunities to lag behind the growth in the size of the labor force.

In productivity, and in a number of other fields, it is true that the Government at Ottawa is showing real economic leadership. But lead-ership from government is not enough unless all groups in the country are prepared to forego self at abort-term gains for wiser policies which —x[ii a.d national economic recovery.

Turn Cares Into Libraries

Three thousand cases in Cairo and its auburns are to be transformed by law into "cul-tural centres." The mayor has decreed that und centres." The mayor has decreed that arm now one cach each hast hast he disposition of its matomax brings in the disposition of its matomax brings in the disposition of its matomax brings in the control instructive and wholesome books. Licenses of all cates have been cancelled and only those with proper public libraries will be allowed to reopen—Le Peits Marscain, Casablanca.

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor

What could be a dress rehearsal of the Stanley playeffs forms tonight in Montreal when the diens and Toronio Haple Leng tangle in a "pur-ter" for visiber squad, plus a benus of first place

the season.

The more rold supporters of these teams freely print they will enter the journing lists for the frame to the print and the journing lists for the frame as which could very well upset the applicant and fit in the doday.

The Chicage Black Bawks and the Deirell Red Trags went the pushelpers in the sent-finale listing and the print and the

Tonight's game is a "must" for the Habs for in their remaining clashes of the achedule they meet the cks and Detroit, while the Maple Leafs take on the resided Bruins and the back-to-golf Rangars.

Kelly suffered another groin injury during a shating ctice and he is definitely out of tonight's game and bebly will miss some of the playoff tilts. Bower shat led a muscle and either Cesare Maniago or Gerry Namars will be between the pipes for the Leats in

South Africa Departs South Africa will leave the British Commonwealth of Nations.

Her departure will please many, but the

manner of her going will displease most.

Prime Minister Henrik Verwood out-foxed his opponents and abandoned his unwilling

By withdrawing South Africa's application to remain in the Commonwealth, Verwoord may have robbed the foes of spartheid of much of the prestige in the African world which could have accrued had the South African application been rejected as a matter of principle.

In this way, he achieved a certain aura of victory, though at a considerable price, for mem-bership in the Commonwealth was of great importance to South Africa from the economic

This is the penalty which Prime Minister Diefenbaker and his African and Asian associates must pay for their forebearance and readness to permit Prime Minister Macmillan of Britain to struggle until the last in an effort to discover some acceptable compromise.

discorer some acceptable conjpromise.

True, from the necessarily abhreviated and undetailed reports of proceedings in the conference seasons, which were not open to the press, it would appear that Prime Minister Diferiohaker had derised a formula which might have been expected to result in South Africa reading itself out to be a season of the process of the proce But the impact of such a result, with the other nations formally on record as supporting such a declaration, might have been different from that which will follow South Africa's departure before such a declaration was thrust before it for

The unhappy truth is that the colored nations of the world may attach importance to the fact that the Commonwealth countries did not stand up to be counted on the issue of apartheid.

It now behooves the prime ministers who, vigorously criticized apartheid to make the most of their stand, and to endeavor to reap the same rewards in prestige for the Commonwealth which would have followed a forthright declaration that any land which practised apartheld was not wel-come in the Commonwealth club.

For Prime Minister Macmillan, Verwoerd's decision represents a bitter disappointment. His argument, not without considerable merit, was argument, not windout consistence metric, was that the institution of the Commonwealth was much more enduring than the personality of any leader or the policies of any party, that the day might dawn when South Africa's racial problems would be handled in a different manner and when association with the Commonwealth would prove invaluable, not only for the white residents of South Africa but for the Bantu and colored population also.

This argument has much more to recommend if than the more frequently advanced suggestion that membership in the Commonwealth might help to ameliorate the lot of the Bantu and colored populations. Past performances have shown how little Verwoerd cares for public opinion in other Commonwealth countries.

opinion in other Commonwealth countries.

The argument for exclusion of the Commonwealth, was based on several points. First there was the basically selfish but realistic one that other Commonwealth lands could not afford to be confrainted by association with a country-practizing spartheid. Secondy there was the incessity of choosing between South Africa and her Commonwealth or prospective Common-ealth members—Tanganyika's chief minister had publicly announced that that land would not apply for membership when its independence was won if South Africa, with apartheid un-changed, was still a member. Thirdly, there is the fact that South African opponents of apartheid, both white and colored, had pressed changed, was still a member. Thirdly, there is the fact that South African only pensents of aparthed, both white and colored, had present of cregoritism or their country from the Components of the country of the color of the country of the color of the country of the color of t

Manners, Spirit Are Delightful

The att of living, if there is such a thing, consists in the successful combination of contraries. What I mean by this clumsy phrase can be more easily seen if one observes small

Children, roughly, fall into Children, roughly, fall into Children, roughly, fall into two classes: those who have excellent manners and are represent and the command of the command of the command of the children child can be trained to observe the amenities; while a spiritless child cannotbe three mentions; while a spiritless child cannotbe three mentions; while a spiritless child cannotbe three mentions.

b. But I think we would all szree a child should combine bo th attributes; he should have at least a working minimum of decent manners, and he should be exuberate. Not many young he was the should be exuberated to walk this thin what is true for the state of the same than the should be the same than the should be same that the should be same than the same than the

ters are note to make the high wire.

What is true for children is true for people generally. Yet, here again, we usually find that the well mannered, the quiet, the formal, are lacking in the world judges of life; while the people with vast animal spirits soon become offensive and obnoxious in their self-assertion.

16 largely for this reason noxious in their self-assertion. It is largely for this reason that parenthood is so devilithy heard. Most parents, often without knowing it, tend to overstress one or the other of these precious elements. Unless they work out their own neurotic difficulties through their children.

The successful combinations of contraries — moving in delicate equilibrium — is what makes a personality delightful to know and be with. A certain quality of "unexpectedness" is what gives charm to character; otherwise we are fini-footed, dull and quite predicatable in our reactions.

and quite predicatable in our restellors.

restellors.

In the properties of the state of the st

Steins Lose To Bottles

Germans are taking more and more to bottled beer, inary pint at the pub, and innkeepers and restaurant owners are not allogether happy about this change of approach. At a strade association just held in Duesseldorf, it was noted that a much as 60 per cent of the beer currently being downered to the control of the co

Bonne Bay, Newfoundland **Holding Court in the Outports**

Canada's great size and isolated settlements lend a colour-ful flair to the country's geography but place many an obstacle in the path of good adaptionation. In this of other law the need for efficiency and despatch is partic-ularly pressing, since an accused person has the right have his case hard within a reasonable length of time. To loop with this problem three are across Canada some 485 magistrate's courts which deal with roughly 98% of all

criminal charges laid. Many of these magitizates operate in remote rural areas, but whether they hold court in a modern metropolities courthouse to the own picturesque patch of land temporarily declared to be some picturesque patch of land temporarily declared to the own picturesque patch of land temporarily declared to the own picturesque patch of land temporarily declared with early some patch of land temporarily declared with early some patch of land temporarily. On a wharf or Reef's Hardjour, Newford, or what was to be a support of land to the land temporarily of land to the land temporarily of land temporarily of

White, a Magistrate since 1956, is a former newspaperman and journalist. He is preparing a book on the origin of place names in Newfoundland. Above, with Constable Newcombe in attendance, he holds court as Woody Point in one of the smallest courtrooms in Canada.

Offences dath with by maginaries are varied. The major-ty are mione, involving dumkenness, perty drift and transport of the laber, in frequently applicated with family infractions, Juck White, who has become a legendary figure among the fiding and lumbering folls of his district.

Successful Living

By Doris Clark

Mother Worried About Family Costs

DEAR DORIS:—It's mooney, mooney, mooney, mooney, mooney all the time. My daughter says she simply must have a new dress for the formal school dance coming up; my tesen-ged boy begs for a school sweater; triend husband; wants a new car, and my spring outfit is six years old.

I can't make ends meet, yet my hus-band has a good job. Is there any answer to this kind of worry?—STINGY

DORE CLARE

OLD MOM.

DEAR STINGY—Call a family conference. The big wigs in Ottawa are forever petting beed strait, make it is decisions without planting the proper favored.

Sport Slices ...

RARE, MEDIUM, WELL-DONE By GEO. H. CARVER, Sports Editor

"Til the stylniesth of Otreiand and ye'll soon be writin about Mantles, the Spalms, the Willie Mays, the longers, Giants and the rist of the baseballers."

The McCools were the greatest athletes the ould god produced. And they all liver to tipe ould ages. Why the Steind was found one day team's eight-pound shot a fifty-foot buildin', at the age of eighty.

And they had the greatest baseball team of all toi called 'em rounders in those days, they did. was before the Rossians invinted the game, and ses stole it from the Sassenachs.

"And I'm child' ye a scoop. To great Caser Yand i'm child' ye a scoop. To great beaut so the didn't come from Pullber a Baltimore have a cea. The divid he did. He was the first McCoplome to America. He was coard there is up the midston for the New York police department."

A warm Irish smile softened the craggy features of ould bucke. It spread over his face like he was rin' the Kerry pipers skirling their way down the

"Bal Fin, als, there was the blar. He had limbe on him thirdies of the blackthorn branches from which shall bright av 1, bid, popular wid finind or for. He was a flugger av which alver has been seen the islan-tic could drive the ball out av the country. One game alone he drove out four home runs, and the balls were alone he drove out four home runs, and the balls were

"But his mightlest blow came when Kerry was playin' tenny for champloniship of the Ould Country. The, trys liked Fin so much, they insisted he autygraph all baseballs, just for souvenirs.

"The ball was piver found, and its whereabouts re-mained a mystery for siveral years. Meanwhile Fin's ame grey until he was known all over the world."
Then was the world.

"Then wan day the mystery was cleared up. A sry from St. Petersburg, Roosis, said the Czars' b ree playin' the Swiss Yodellers for the European

A Sorry State of Affairs

Dirty British coasters with salt-caked smoke-stacks may go beating up the Channel in the mad March days, as poet laureate John Masefield related, but here in the Quinte district the ships that sail in miserable March are as rare and wondrous as those quinqueremes from Mineyeb, rowing home to Palestine laden with peacocks. They are the dream-boats or the winter-weary, the skimming saliboats, crest-rid-They are the dream-boats of the ing powerboats and fish-laden punts of the coming spring and summer.

ing spring and summer. Into such a lovely picture only the most heartless landilubber would toss a dead fish, but it is our sad and sorry duty to report 15,150,00 pounds of pickerel missing. We have this on be most reliable authority, the Ontard Department of Lands and Porests, which has just issued the annual survey of the value of 1960 Ontario its annual survey of the value of 1960 Ontario commercial fish production. The crassly mer-cenary may revel in the news that this figure was up \$4,807,000 or 15.6 per cent, but we were plunged into gloom when, wading through piles of builheads, catifish, chub, herring, ling, sheps-head, nunfab, alewives, gar, shad and dogfish— sall caught commercially must you—we came on the oblituary notice for Lake Ontario yellow

pickerel.

Last year, Lake Ontario yielded only 130,000 pounds. This, mark you, was less than half the yield for 1899, when 282,000 pounds were caught. What is happening to Lake Ontario-Pickerel have with which our own, Quinte district pickerel have this closest of family connections—in many classes they are one and the same fixed? What do the figures for last year's catch forecast for the 1961 stringer, dangling from the fisherman's boat in Hay Bay or "Mosquitor" Bay or West Lake? Can we be expected to cheer at the fact that the catch of perch increased more than four-fold. from 31,000 pounds in 1959 to 135,000 pounds in 1960, or that more than three sunfish sported in 1800, or that more than three stinian sported where a year earlier only two flicked their fins? It is the pickerel pickings which interest us. The summer's cargo, when homeward bound, raight just as well be the cheap tin trays of the dirty. British coaster as the herring, up fifty per cent, offered as a substitute for pickerel.

per cent, onered as a substitute for piccarel.

Incidentally, if you have a cottage on NIW, how about a weekend invitation? NIW is the Department of Lands and Forests code for northern inland waters and these yielded 2,057,000 pounds of pickerel last year, fifteen times the Lake Ontario catch.

-A New Cost of Learning?

Ontario's Minister of Education, Hon. John Oniario's Minister of Education, Hon. John P. Rijbaris, recently indicated that students who make low grades in grade 13 may be charged \$5.00 to write their examination papers. The reason behind this appears to be that there are some 10,000 grade 13 final examination papers abbuilted and marked, each year which never should have been judnitted; presumably because of the students' performance during their year's work. "This costs the provincial government some \$40,000 in markers' fees.

Perhaps: the \$5.000 fee will make the time."

Perhaps the \$5.00 fee will make the im-ssion upon the students or their parents that high school is not just a joy-ride, a means of and section is not just a joy-not, a means of filling in the time or taking a son or daughter off shother's hands for the day. It is a prepar-ation for life, not just a process to sort out 30 per cent of those entering high school to go into the world with a bare minimum of education whilst the other 20 per cent graduate out of grade 12.

grade 12.

Communities and tarpayers are paying a very considerable sum each year for education. It is too bed that better results are not forth-coming. This is not meant to be a criticism of school teachers; we have never heard of a farmer who could make a horse drink nor of teachers who could make a numwilling poull learn. The fault, we believe, lies much, much closer to home. It a boy or get is not given the closer to thome. It a boy or get is not given the with continued and steady not consults reorder with continued and steady not consults reorder.

if his progress through his schooling is not met with continued and steady, not spondie reportine, listered by .his parents, then it is his parents who should be paying to cover the cost of the control of the cover the cost of the cover the corner of the cover the corner, but his definitely a step in the right direction although a bit late in the student's life to change his ways. It might be better to start such a system at the grade.nine level so that both students and parent became aware of the responsibilities of the thefit at which is the control of the responsibilities of the thefit at callen carrier.

Wind of Change Blows Hard

'That "wind of change" which Prime Minister Harold Macmillan snifted blowing over Africa, on his recent visit to that continent, is picking force and may yet become a hurricane

The very day after South Africa decided to leave the Commonwealth, we find Canada, and all other Commonwealth countries except Aust-

tories, if they have not already achieved indepen-cience, have been made UM trutuscalpius. The ad-ministrators have no moral right to rule in a fashion, at variance, with the principles of the organization through which they derive author-ity, Owlonday, bleen, whatever one may think of Bouth Artica's right to impose sparthed in her own territory, she has no right to follow this pol-icy in Southwest Africa.

icy in Southwest Africa.

Whether Canada would have joined the majority in supporting this view, or whether it would have abstained from voting, had not the UN vote been preceded by the desiston of South Africa not to seek continued Commonwealth membership, is a moot question. This just serves to show that the Commonwealth decision is certain to add power and velocity to that wind of change. This, indeed, as much as any concern about the loss of South Africa itself, may have been behind Macmillan's descreate efforts to been behind Macmillan's desperate efforts to reach a compromise at the Commonwealth Prime Ministers' conference. He needs time to Parine Ministers' conference, He needs the fact seattle the fact of the Central African Pederation of the two Rhodesias and Nyasaiand, where the whites are vigorously opposing reforms which would definitely turn the country away from the idea of apartheld. Although radial segregation has never been carried to anything like the degree which exists in the neighboring South Ariean territory to the south, there is grave reason to feat that; if the Pederations were granted to the proposition of the production of the proposition of the production of th

One sign of the way the wind is blowing, and its strength, is that the day before the vote against South Africa in the UN General As-sembly, Russia and the United States found themselves on the same side of an argument in the Security Council. Both supported an Afro-Asian demand for reforms in Portuguese Angola, one security Council isoft apported as Arro-Asian demand for reforms in Protiquese Angoli, which lies immediately to the south of the Conge, Pertuguese colonial policies, from what we have been also be bearing are a query man which will be the control of the control of the matter which is perhaps not so unrythating when one remembers that Pertugual itself has been under the Salarar dictatomhly for years. In Angola the policy seems to be to permit the wealthier and better educated Africans to take their places in the civilized community, along with the Pertuguese themselves, but to rule the poor, uneducated African masses with an Iron hand. There is a separation just as marked as that in South Africa, but the dividing line is determined not so much on the basis of color, though that is still a factor, as on the basis of class, which in its turn depends on wealth and class, which in its turn depends on wealth and education.

What Gentlemen?

Price-fixing isn't a device peculiar to hig mpanies on this continent. It crops up ewhere when there is an idea they may get

away with it.

In the United Kingdom the British Bottle
Association has been hauled into court for fixing
the minimum price at which its members might
sell bottles. It was done, it was explained,
to avert the possibility of a price war. It was
described as a "gentlemanly industry" withing
free competition, "but on equal terms."

The question was raised whether "gentlemen," would excess in an excession as expenses."

The question was raised whether "genue-men" would engage in a price-fixing combine in defiance of the law of the land. The word "gentlemen" so often is extended far beyond its proper scope.—(Windsor Star).

We need to shed the American idea that . mere money must produce a better result. It does nothing of the kind in the production, say, of a motion picture. It can produce negative results in education.—Professor C. Northcote Parkinson.

Shell reveals how \$1,000,000 worth of platinum catalyst puts extra mileage in today's Super Shell -to give your car top performance

Among the 9 ingredients in today's Super Shell is a special component called Platformate. It packs more energy per gallon than the finest 100-octane avation gasoline. This extra energy turns up as extra mileage.

Read how Shell isolates this extraordinary ingredient by re-forming gasoline with pressure, heat-and platinum.

TODAY'S SUPER SIFELE promises to Addieve top performance. It could not keep that promise unless it contained Plufformate.

It takes Shall one million dollars' worth of platinum casalyst to produce this extraordinary ingredien. But, fortunately for your pocketbook and ours, this precious catalyst can be used over and over again.

Frightful ordeal adds mileage

The whole platinum re-forming process, which gives Platformate its strang name, puts gasoline through a frightful ordeal.

Pressures up to 600 pounds per square inch and temperatures up to 1000 degrees literally tear it apart and then re-form it into super-energy compo-nents—such as benzene, toluene and

These three components, between them, release seven per cent more energy per gallon than the finest 100-octane avia-

But make no mistake. This is not raw,

But make no mittake. This is not raw, untamed energy, Far from it.

The super-energy of Platformate is harnessed by the eight other ingredients in Super Shell, where it behaves so well you scarcely know it's in your tank—

are some interesting facts about the other eight. What they are, what they do—and how they do it.

Ingredient #2 is TCP for power, mileage and longer plug-life

pug-use
Super Shell now contains an even better version of this famous additive. It was originally developed for use in aviation gauodine.

TCP* additiveten give your car up to 5 per cent more power, 17 exto miles per lambful; and make your plugs last twice as long. "SHILL'S TRADUMANN FOR THIS UNIQUE GASOLINE AL Today's aviation-grade TCP does this by neutralizing the harmful effects of engine deposits. It stops them from glowing when hot—a major cause of power loss.

power loss.

It also stops them from diverting your spark—a major cause of "missing."

Ingredient #3 is "cat-cracked"-gasoline for power with a purr

This is petroleum that has actually cracked under 1000-degree heat and catalytic action. Its heavier molecules

ones. The result is a high-octane ingredient that makes your engine purr with

ower the moment you put your foot

NOTE: "Cat-cracking" refers to the use of a catalyst—a substance that has the mysterious ability to alter molecules without changing itself.

Ingredient #4 is heavy alkanes —for both power and economy at all speeds

Shell scientists will tell you that gaso-

line can be too sensitive line can be too sensive.

That's their unflattering description of a "touchy" gasoline that performs well enough when you're driving ilowly, but causes knock and loss of power when you speed up.

No they put heavy alkanes into Super Shell. This ingredient is prized for its insmitivity. It keeps octane ratings high enough to give you plenty of knock-free power at all speeds.

NOTE: Heavy alkanes also have the ad-vantage of lowering your fuel con-sumption. Your, engine can use them up slowly—and still give you all the power you need.

Ingredient #5 is anti-knock mix for extra resistance to knocks

You might suppose that two high-

This is where Platformate is usade. The "platforming" reactors are process, a tent is erected at the reactor to protect the catalyst from wind primed with a carload of platinum catalyst. During the re-charging and rain. At half-a-million dollars a carload, it is precious stuff.

octane ingredients are enough to give you knock-free performance. But Shell scientists have ears like musicians. They insist on adding a special anti-knock mix. A mix, so effective, one teaspoon per gallon can boost anti-knock rating by seven points.

This mix has the tricky job of regulat-ing combustion so that Super Shell agives each piston a firm, even push-rather than a sharp blow which would cause a knock.

Ingredient #6 is butane for quick starts on icy mornings

By itself, butane is so volatile that it would actually boil in your refrigerator. In Super Shell, it helps your engine fire in seconds. Think what this means in cold weather. Your battery is relieved of strain—and so is your

NOTE: Super Shell is primed with butane all year round. In winter, Shell scientists simply increase the quick-start dose.

Ingredient #7. is mixed pentanes for fast warm-ups on cold days

Pentanes are made by tearing gasoline apart, much as you split logs into kindling to stare a log fare. In this case, the "logs" are petrolesm's heavier hydrocarbons. A special process transform, their molecules from slou-burning "logs" to quick-firing "kindling."

NET RESULT: Fast warm-up and top

Ingredient #8 is an "anti-icer" to stop stalling due to carburetor icing

Super Shell's formula is adjusted up to eight times a year for your area to beat the weather. Whenever the temper-ature is likely to be less than forty-five degrees, an anti-ice ingredient is added.
Why add anti-icer at forty-five degrees? Because, even then, frost can

form in your carburetor just as it does in your refrigerator. It can choke your

Ingredient #9 is gum preventive to keep the fuel system clean

Even the purest gasoline can form gum when stored. This can clog carburetors, fuel lines, pumps. With Super. Shell-you needn't worry. A special gum preventive does the trick. It acts like a policeman controlling a mob. Keeps an eye on unstable ele-ments—stops them from clotting and

forming gum.
Super Shell makes gummed-up engines a thing of the past.

Test Super Shell for yourself

Try Super Shell next time you fill up. You'll soon feel and hear a difference in

How much money must you have to need a Family Security Check-Up?

Whether he earns less than \$100 a week or more than \$1000, a man with a wife and family has to plan for their future security. In fact, the more a dollar means to you, the more carefully you must plan to be sure your family gets the best protection for your monety.

You have to know, for example, how much your pension will provide. Whether your insurance dovetails with your mortgage. How much your family would need to live the way your want them to live.

Now Metropolizan, the company you look to for authorita-tive information on health, offers every father a way to answer such questions—The Family Security Check Up. You'll see, at the right, all the steps you go through to satisfy yourself that the provisions you have made for your family will do what you intend.

Your local Metropolitan representative has been trained in Metropolitan's own schools and is qualified by solid ex-perience to bring you this service. He is equipped with scientifically designed charts and tables that show you, in black and white, exactly where you stand.

Room 1, Star Building, 385 Front St., Belleville, Ont.

FAMILY SECURITY CHECK-UP? Check-Up

With the help of your Metropoliton man—

1. You check the facts your pension plan, your home, your left insurance, your savings and other assets. You may be surprised to learn how much you're worth. You weigh your responsibilities: mortgage or rent payments, education, retirement, accident and sickness emergencies; how much it would cost your family to live

3. You learn where you stand. You determine your weak and strong points . . whether the provisions you have made for your family will do what you intend. You get the facts in front of you.

A. You plan for the fature. Based on these facts, you decide what action, if any, may be needed to give you a family security plan, tailor-made to your own needs and ambitions—one which makes good sense for you.

Car Safety Conscious?

Three Canadian car manufacturers have recently announced that they will install safety belt fasteners in their 1962 models. A fourth firm states that it is considering a more. This

is most interesting.

When a sufferently research project, five years ago, revealed that the majority of personal injuries resulting from anto accident could be other lessenced of done away with if cars were the second of the

If the manufacturers were really concerned y would have offered these safety features as andard equipment included in the basic price the car. The fact that no manufacturer has of the car. The fact that no manufacturer has done so during the past five years or so is an indication that safety was but a sales or adver-

indication that safety was but a safes or anvertising gimmick.

Any, firm is morally bound to produce as safe a product as possible for the public market. We cannot look to the manufacturer to cure accidents which arise from some vehicle operaccutants which areas from some venicle oper-ator's insligation or carelessness. We do, however, look to them to produce vehicles whose basic interior designs and appointments are such as will minimize the injuries which could be culfered by the occupants in the event of a collision or accident.

collicin or eccident.

The industry a engineers and des gners know well enough what is peoseary for this condition collapselse sterein columns, peoded dashboards, recessed dashboard controls and glare-proof instrument panels are not new in concept. They certainly appear to be in practical, application, however. In fact the great majority of the new models today are glating examples of the direct work of the control of the

is punces vocated by the property of the same of the property individual manufacturer and its quick cure is his responsibility. Any further neglect of this responsibility is unwarranted.

Worthy Thought From Honest Man

Worthy Thought From Honest Man
Douglas Johnson of Los Angeles, the unemployed maintenance man who found \$340,000 in the street and turned it over to the proper authorities, and a very sound reply when asked if he had been tempted to keep the money. Said the had been tempted to keep the money. Said the had been tempted to keep the money. Said the had been tempted to keep the money. Said the latest the had been tempted to keep the money. Said the latest the had been the

Too Much Government Research

Are agencies of the Federal Government spending too much on recearch? And is research by such agencies often conducted for research's salie, with scant regard for any practical applications?

Speak ng during debate in the Con Epsek nr during delate in the Commons on a powerment multon to set up a special committee to scree e.a a watchforg over, government acceptance of the control of the control of the case of some agencies over the case of some agencies, could probably be answered in the affirmative. "I have the feeling," says Mr. Fisher: "What we have kind of gone overboard for the magic word 'research' in the last couple of years."

Mr. Fisher is probably right. The proper place for pure research is a the universities. Applied research is a proper and necessary time-tion of the Netchical colleges and of Industry.

MOVING?

How do I save?

When it comes to saving here's a trick worth knowing. Avoid writing cheques against your Savings Account. Impossible? Not at all! Open a Personal Chequing Account at the "Royal".

Use this account for paying bills. Keep your Savings Account strictly for saving. The bank calls this the 2-Account Plan - a sure-fire way to save. It makes sense. Give it a try.

RARE, MEDIUM, WELL-DONE By GRO. H. CARVER, Spirits Editor

Ask any member of the Canadiens, Leafs, Stack Rawks and Red Wings what his favorite color is—and you'll gut a stock answer—green.

Dur't go nour there's more

Then these one the all-ster squack. Players who make first team, are each given \$1,000 by \$55 NHL while bers of the second team receive \$500 spices.

This works out to a total of \$8,500 in incentive mon-slayers capturing these individual trophies-

A player who has an exceptionally good sesson and member of a team that finishes in first piace and ages on to win the Stanley Cup could win himself 60 over and above his regular NHL salary.

The \$4,000 would come this way: \$1,000 for being on four that finishes first; \$1,150 for being on the team wins the semi-final round and another \$1,750 for ning the finals. This totals \$4,000 extra. Suppose player wirs one of the NTL individual seweries player wirs one of the NTL individual seweries and the semi-final series of the NTL individual seweries and the semi-final series of the NTL individual seweries and additional \$2,000, bringing the player's total booss are to. the \$8,000.

And in addition he collects from the Canadisms' at office \$100 for each goal he scored ever 26, m-Boom ripped home 50 and that means a cool has homes.

NEWS: NOW all Goodyear auto tires are GUARANTEED against damage from all road hazards

THE NEW GOODYEAR GUARANTEE

1. ROAD HAZARD QUARANTEE

All new Goodyear automobile tires are guaranteed by written certificate against Al Road Hazards-blowouts, fabric breaks, cuts-except repairable punctures. Guarantee limited to original owners for number of months specified.

2. LIFETIME QUARANTEE

All Goodyear tires are guaranteed against any defects in workmanship and material without limit as to time or mileage.

Any Goodysar dealer will repair without charge, or make allowance toward purchase of new tires, based on original tread depth remaining and the survent "Goodysar List Price."

Double protection. From today all new Goodysar auto tires carry this dual guarantee for your protection.

How is this possible I, Improved materials, fine work-manship, rigid standards of quality-control and inspection result in a superior product. So superior that Goodynar and offers even now guaranteed against blowouts, fabric breaks, cuts, clumbing, beed chafing, cracking and reported

mplet the Goodyser Custom Super Cushion is guar-ed for two full years. Even with the economy-priced dyser Marathon you are protected for twelve months.

The chances are you will egree with the majority of Canadian motorists, And most car manufacturers, too. Goodyear tires give better value than any other kind.

There is a difference in tires. Visit your Goodyear dealer this week. Take advantage of the new Goodyear Guarantee.

The New Idealists

The Wall Street Journal is pursled, but not particularly disturbed, by the enthusiasm engendered by President John F. Kennedy's "Peace

The Journal says that it is all in favor of the people of one country getting to know the people of another country, that "when an Ameran teacher or doctor makes his contribution to some favor place, that can help to give a better understanding of what kind of country America is." It is just pussled over the "wild America see in the plast pursues over the wind and fanciful notions that get wrapped around these ideas," seeing "all this to-do about the Peace Corps" as an "uneasy reminder of how readily we can get swept up by a slogan, how quickly we bemuse ourselves that simple good with solves the most complex problems."

The Journal has a point in warning against

the deception inherent in slogans—all slogans, for they all over-simplify—and in its realistic insistence that simple good will solves little.

And yet the Journal, we fear, is missing the significance of two phases of the "Peace Corps" plan. "And what person," it asks, "except the very young themselves, can really believe that an African aflame with violence will have its fires quenched because some Harvard boy or thes quenties we cause some narratus up or vasar girl lives in a mud hut or speaks Swahili? The answer to that question is that, if there is any way to quench the fires of hate in "an African," it is most likely to be by way of parsentel contact with some white-skinned individual who is willing to live as he does, share his burdens and sympathize with and further his ambitions. It strikes us, though, that this sentence may have suffered in copying, from one newspaper to another, and that the original Journal editorial probably referred not to "an African" but "an Africa" With this change we admit we share the Journal's scepticism. And we admit we share the Journal's acepticism. And yet, perhaps the error, if it is one, in substituting "an African' for "an Africa" hag shown us the only fileker of hope. The future of a continent, after, 311, is desermined by multitudes of holiving under the work of the continent of the contine beyond the power of presidents and prime min-isters and chancellors.

Secondly, and perhaps equally important, the enthusiasm which has greeted President Kennedy's "Peace Corps" proposal is welcome, and to many surprising, evidence of a resurgence of idealism amongst young people. There may be those who will object to the use of the word "resurgence," but we believe it to be justified. It is surely common knowledge that the postwar events have proven distillusioning for many of those who fought in the belief that they were of those who longin in the belief that they were establishing a world in which the Four Free-doms would everywhere be recognized. As for evidence that this climate of cynicism is chang-ing, the response to President Kennedy's sug-gestion is itself proof of this fact. If we need gestion is itself proof of this fact. If we need this buttressed by a survey, by a happy coincidence Maclean's Magazine, in its latest issue, provides this in a series of articles dealing with the young adults of today.

The idealism of the young may solve few problems, for as the Journal says simple good will is not enough, but surely it is equally true that no complex problems can be solved without such idealism and that without good will even the least complex problems present inextricable targles.

rangies.

—It is well and good that there should be heard the voice of the sceptic, scoffing at the idea of "ma smy of young people, fresh out of college ... going to go swarming all over the world, spratading the google of America and saving the Free World from the barbarians." But perhaps these young people would be the last to view the "Peace Corpe" in this light I idealism and market are not one and the same thing.

President Kennedy's "Peace Corps" may lose its way, as did so many idealists in the thirties. No generation learns much from the last, but each learns a little and this time, perhaps we shall, after so many weary centuries, at least cee a crusade where a little hope is substituted for much faith, where idealism is not soured by the vinegar of ideology.

The famous Nuremberg Trial (television) program was sponsored by a gas company, and they wanted all reference in the testimony to gist chambers removed as they created a harmful image of the product.—U.S. television producer David Susakind.

Belleville Choral Society Presents Handel's Messiah

Great news in dust mops!

ZOOM-A-LON is the modern mop . . . a mop that can't mat or tat no matter how often you use or wash it . . . a mop with magno-static action that actually attracts the dust, then shakes it free with a flick of the wrist.

Next time you shop for an O-Cedar mon_ask for ZOOM-A-LON, it's the miracle fibre that picks up all the fine particles left behind by ordinary mops.

Eskimo Artists at Cape Dorset When the Wind Blows They Make Prints

Living in the traditional ways of their encestors, the Eskimos at Cape Dorset in Canada's Eastern Arctic; are hunters first and foremost. When there is no wind they strike our across the snowy whiletiness in search of bear and waltur, seal and whale. When the wind world today. Long reasonwed for their powerful couptons extraings, Lope Dorset Eskimos have secently turned their attention to a new art form combining old stone-curing skills with graphic edign. The new art form the combining old stone-curing skills with graphic edign. The new art form has produced the widely seckimed Eskimo prints made from some block and weakful smeal. Their first: showing in March, 1960, at callidate across Canada shot the United Sease was a immediate success. Many desires said for \$40, to \$50, traded a few weeks later for Fevreal hundred dollars. This month 'Bears and Cabi in Ince' by the later, pares Privitaking feeded the top price to due of \$700. The 1961 exhibition will contain some 70 designs which will go on as in Canada and the United Sease on March films. Nime of the prints are by the well-known carever turned paintmaker, Kaishnik (show), considered by many to be a native genits. His work, they deaded anywhere in the world. Respects for prints from late year's show came from a score of countries, including Holland, North Africa, Australa and Brazil. An exhibition in Poliand, Careloslowikkis and Yugodavia received critical acclaim. Plans are for the show to move on to Russia.

A Kinkhih prin; "Owl and Hase", is pulled off the mone Top prinsmaters at the finy Dorset crift centre are (I to r.) Iyols, Lukrak and block by printer at the Cupe Dorset Arra Carme. Plans Egypridhle. The trio pulled more of the prints which will be on each business in the control of the prints which will be on each business are under some or the control of the prints are undersory to build what will be Canada's more nearthtown you is also a undersory grade arrice. One of his grains, "Canada Geese in Flight",
was presented to Her Majesty the Queen during her '59 visit to Canada.

A uniquely Elsimo creation is the seakkin sensel. A design is cut out of seakkin and

The man behind the thriving area centre at Cape Done
paint is forced through the opening with stiff-bristed brushes, usually of polar bear on the southwestern shore of energy Baffin Island, Jame
hit. Prints frequently carry 2 signatures, that of the arries as well as the signature of Homon. His Eskino friends call him "Sammk" which

Child's Frightened Cries For 'Mama' Lead To Find In Wider Search Of Area

Do Not Believe Williamson's Story He Was Intermediary - - Pringle

A small boy's frightened voice calling "Mama, Mama" heard west of Belleville led indirectly to the discovery Wednesday afternoon of the body, of 10-year-old Tom McNevin.

The young kidnap victim's body was found trussed to a tree in a deserted swamp seven miles northwest of Belleville by two off-duty pro-vincial police officers.

Cause of death was exposure. But the boy had been beaten Folloe said a cut on his head might have been caused by a blow from his hockey sitch—a deep scare on his thumb indicated he might have raised his hand to ward off blows. He apparently was knocked unconscious, later regained consciousness and rired valuly to ree himself. His skull was not fractured. Fire strands of quarter-inch rope were around his neck, one strand over his mouth. The bark on the tree was scraped where he apparently tried to free himself.

The young boy was kidnapped some time after 4.15 p.m. Mevening when he left home to go skating.

BOY HEARD CRIES

Hearing cries while outside feeding his dog at his Trent Rosa at eight o'clock Monday evening, Stephen Watts, 16-year-old Secondary School student, notified provincial police.

He told police that following the cries he had heard footsteps ning in the darkness. He is the son of Mr. and Mrs. Lisis Watts

City police checked out the lead as a possible cius in the kide ping but found nothing in the vicinity.

Tuesday, however, Provincial Police Inspector A. McDougall directed his men to make a complete search of the Sidney township area. The extended search paid off Wednesday when Gif-duty Constables Grant Kerr and Gordon Oliver spottled foot-tracks leading from the lonely addered toward the swamp.

"There were two sets of foot-tracks

"Incre were two sets of foot-tracks—a man's an into the snow and only one coming out," they said.

An Excellent Proposition

The Ontario Medical Association re posed that a lavy he made on driving it pay for the provision of adequate amb sice for highway traffic casualties to

provinces.

During discussion of this proposal it was noted that there currently exists no "organized system" of getting accident victims to hospitals and that many of the independent operators providing ambidance service are loaing money, getting paid for but if ip per cent of their calls.

A decrease in the number of ambidance previous and the companion of the providing ambidance service are loaing money, getting paid for but if ip per cent of their calls.

A decrease in the number of ambidance personal for the paid of the person in the money of the personal form of the person of the personal pers

bulance service.

The OMA suggests that the approximately \$1,280,000 which would be obtained from such a levy could implement a proper program of providing adequate ambulance service through-out the province if it was coupled with government regulations regarding the equipping and staffing of ambulances and the training of the personnel involved.

personnel involved.

We were especially happy to note that there was no direct reference to the government organising and maintaining this service. There should be no need for this. As we see it, the funds obtained could be used to reimburse independent operators or to provide the establish-ment of ambulance service, where needed, with an organization such as the St John Ambulance

ple responsible for its operation.

Of the two we would prefer the former plan. The operators could be paid a flat rate per mile out of the fund, providing they maintained their equipment to specified standards and provided adequate trained personnel. In this way the operators would be assured of being paid for their fétrices and the public would be assured.

of good service.

There is, of course, one obligation on the part of the government to the motorist in such a plan. That is to ensure that service is readily available within a reasonable distance on every public highway in the province. In some areas this would mean the encouragement of private individuals or firms to provide service where it has not been provided before. On the face of it, this seems worth the effort involved.

Pandering, Indeed!

Tangering, indeed:
The South African Fremier Fiendrik Verword in the Common State of the State South African campaign carried on in the Canadian press as well as in clerical and Wits-liberalitic circles. "It is his feeling that Mr. Diefenbater's alliance with the Africakan Commonwealth group was "motivated by considerations of political expediency." Well "Perhaps Mr. Verword is contusing the art of wandering with the market of respective the contracting the art of wandering with the market of respective the second of the contracting the

Perhaps Mr. Verword is contusing the act of pandering with the practice of respecting the wholes of the majority. In South'Africa, where a minority have complete eligarchical control of millions who have no representation or voice in the country's affairs, it may be very well to call the action of listening to the voices of those who can spake out a spanishering. The properties of the voices of those who can spake out a spanishering, are no restrictions on who can spake out and when our Prime Minister pays attention to the majority of these voices he is engaged in responsible government as beful as country and people engaged in a democratic form of government. In doing this he is reflecting the attitude

as denies a country stan people engaged in democratic form of government, the attitude of the magnetistic content of the country of the count

cratic representation of a country's feelings.
Pandering, indeed!

True humor springs not more from the head than from the heart; it is not contempt, its essence is love; it issues not in laughter, but in still smiles, which lie far deeper.—Thomas

Humbug!

Prime Minister Robert Menxics of Australia, has left no doubt that he sympathizes with Prime Minister Hendrik Verwoord's decision in with-drawing South Africa's application for continued

maxing could arriage application for continued membership in the Commonwealth. "I would not tolerate being lectured by other people," he told a meeting of the Australian Club in London, England, "There will not be any Commonwealth if it becomes a court with people on trial, because we shall all expel each other."

"Don't let us have humbug," Prime Minister Menxies said. But we have it. Either Prime Minister Menxies is a humburg, or he has been humburged. He is either trying to deceive, or he has been deceived.

In the course of his address, Prime Minister Mensies mentioned "my own immigration policy"—the "white Australia" program which has excluded Asiatics.

whether Australian and the control of the control of Assistance.

But it is humbug that this policy, open. But it is humbug that this policy, open. But it is humbug that the seven of some people, is on a par with apartheid. It is the control of t

The real reason for refusing to accept apax*
theid within the bounds of the Commonwealth
was not a deletelation of mere discrimination, but
an abborrence of the whip and the bludgeon, of
making porety for people of one color the
commentone of an economic system designed to
preserve has property or those with while aking,
preserve has property or those with while aking,
preserve has property or those with while aking,
and the state of the preserve has property or the preserve has property or the preserve has preserved

A preserved to be a pressent to be a preserved to be a preserved to be a preserved to be neighborly.

To deny this is humbug.

▼Too Greedy

Raiph Connor of television station CKSO, Sudbury, is a man after our own heart! Mr. Connor has urged the Big Four Football Union to reopen negotiations on television rights

onion to reopen negotations on terevision rights for Big Four games.

His argument—unless these rights are awarded to the CBC there will be thousands of Canadians who will be deprived of the opportun-

awardes to the Cast nerew the schoulants or Canadians with be deprived of the opportunities. Canadians with the deprivation of the Cast of in Sudbury, Samia, Brockville and Belleville are not polential paying customers is short-sighted. People move around. A couple of seasons without Big Four games on the GBC network and we would hazard a guess the effect will be felt at the box office—and this effect, will not be an increase in out-of-town ticket-buyers because they can no longer sit at home and watch the games. Rather interest in the Big Four will decline. People will find something else to do on Saturday afternoons. THE PAC

Gerber Beef for your

Baby!

Once you taste Gerber Strained Beel, for yourself you'll know that here is the smoothest texture this side of a baby's smile. Not only will you notice the lunciest, most texture, but the true-ment flavor as well. Because Gerber Beel is 100½ pure ment, with just enough broth to smooth the texture and bring out the good beef flavor.

Only selected, government-inspected. Canadian beef is used. Careful processing removed most of the fat for easy digestibility. Like all Gerber Baby Foods, it's prepared, by specialists. who really know how to preserve the utmost in flavor, quality and food values. We invite you to taste Gerber Strained Beef, soon.
And don't forget to try Gerber Veal or Chicken.
You'll find them just as superior.

Babies are our business . . . our only business!

Tobacco and Alcohol

Ontario has no plans for a special program educate people on the health dangers of cig-t smoking, according to Hon. M. B. Dymond, tario Minister of Health.

Outside Minister of Health.

This seems a shame. Most users of tobacco may be addictly they cannot stop smoothing, or seem decrease the annual stop most eithout a stop of the stop of the

es to embrace the habit It is surprising that so little attention is not to added not to to to a continuous and mind to added not to to to continuous and mind in course, that the alcoholite suffers for none serverly traum the tobacco addict, but, on he other hand, only a comparatively small num-eror of those who drink alcoholic beverages ever-become true addicts, while most of those who use tobacco fail in this category. Moreover, the casual user of alcohol gets considerable pleasure from its use-for the very good reason, we sus-pect, that he drinks by choice and not by necessity.

issual user of alcohol jets considerable pleasure from its user-ject the very good reason, we suspect, that he drinks by choice and not by mocessity, in this connection it is interesting to note that the tenth ammual report of the Alcoholism Rosearch Foundation of Ontario was tabled in the Ontario Legislature by Mr. Dymond on the same day that he answered a questions on the bacco addiction. Thinking evidence that alcoholism and alcohol consumption rise and full agother' and added that "ale per out of the variation in consumption cam be accounted for by the variation in the relative price," that is in the variation of the price of alcoholic beverages as a percentage of the average adult summal disposable personal income.

In the presentation of the price of alcoholic beverages is likely to reques alcoholic horizontal that the report constance "a suggestion that an "asiquate" increase. In the price of alcoholic beverages is likely to reques alcohol consumption and alcohol addiction." If this suggestion that an "asiquate" increase, in the price of alcoholic beverages is likely to reques alcohol consumption and alcohol addiction." If this suggestion that the report constance "a suggestion that an "asiquate" increase in the price of alcoholic beverages is likely to reque alcohol consumption and alcohol addiction." If this suggestion is followed by legislative action, it will be but never for those who use alcoholic beverages in likely to reque alcohol consumption and alcohol and the suggestion is followed by the present drinking habits, in other words the addict is not likely to be so easily influenced by price as is the moderate drinker. The answer, however, lies in the fruitsonable beven addiction to the summary and the surface of the process of the summary existing restrictions, limiting the number of outlets, hours of also and mirror who would become addicts in the future.

On the other hand, this stress on the overwhelming influence or price has some pleasant enumber of outlets, hours of also and mirror whose w

As soon as public service ceases to be the of business of the citizens, and they would her serve with their money than with their mone, the State is not far from its fall.—Jean.

RARE, MEDIUM, WELL-DONE By GEG. H. CARVER, Sports Editor

Death is no respecter of persons. People die every sy in weffic accidents, plane craches, train mishaps, prough sundry and other causes.

But reaction to tragedies like the terrible Belgian accident of February 18, and clears to home, the ffing out of the life of a 18-year-old key, is always hocked. "wky."

Eighisen youngsters were killed in the flush in the air disaster. A young bey on the threat life was taken whom a visio of the frietre was before him. It seems wrong that was seen prival of our youngust and fabrest and best.

A Winniper baskethall team crashed he lialian ascore agust, including 19 national all-death, in 1848 when they were hilled in at h. Six Casch heckey nationals were killed in one members of the California Polytechnic aguille met destit in 1964.

The Additional Parties of the Burning of the Burnin

Shell scientists reveal how they "discipline" today's Super Shell to give your car top performance at all speeds

One of the nine ingredients in today's Super Shell acts as a disciplinarian-makes sure Super Shell gives you top performance when the going is tough, even under the strain of sudden acceleration and high speeds.

This ingredient is called heavy alkanes. Read how heavy alkanes work to give you plenty of knock-free power at all speeds; how they also increase mileage; and why Shell scientists prize them for their "insensitivity."

Shell scientists will tell you that gasoline can be too sensitive.

That's their unflattering term for gasoline that gives you good enough performance when you're driving slowly, but causes knock and loss of power at higher speeds.

Today's Super Shell it "disciplined" to behave itself at all speeds. A potent dose of heavy alkanes does the job. These are among the heavier of gasoline's hydrocarbons. And also among the most insurtise. A good characteristic for any disciplination.

Result: Super Shell gives you top per-formance whether you're in slow traffic, or accelerating, or awising on a super-

Tests of top performs

Tosts of top performance
A Super Shell's formula changes from
season to season, Shell scientists keep as
watchful eye on its sentirity; they
frequently put Super Shell through a
series of their anni-knock tests.
First, Super Shell is used to run a
special, low-special phonatory engine. A sensitive meter attached to the
engine measures periodicy the formula's
hand: for preventing knock.
London Shell Shell shell shell shell shell shell
program that the shell shell shell shell
program that trun as high speeds (see
large photograph),

Workout at full throttle

For the third test, Shell's test drivers take over. They fuel late-model cars with Super Shell, drive out to a test track, and really give the gasoline a

In the toughest test, fivey do what you do when you ake your engine for every bit of power it can give you. They accelerate as fast as they can, foot down to the foot, throttle wide open. They do it again and again, watching for power loss and straining their ears for the slightest hint of "trace knock." Super. Shall must deliver up. performance both on the road and in the

formance both on the road and in laboratory. Heavy alkanes help Si

scientists make sure that it does.

Heavyweight punch

Heavy alkanes also help to increase your mileage. Like human heavyweights, they, pack extra punch. Your engine can use them up slowly—and still give

you all the power you need.

Now here are some facts about the other eight ingredients in today's Super Shell—and the remarkable things each of them does to give your car top

Ingredient #2 is "ent-cracked" gasoline for power with a purr

This is petroleum that has actually cracked under 500-degree heat and catalytic action. Its heavier molecules have been shattered into livelier,

ghter ones.

The result is a high-octane ingredi ent that makes your engine purr with power the moment you put your foot down.

NOTE: "Cat-cracking" refers to the use of a catalyst—a substance that has the mysterious ability to alter molecules without changing itself.

Ingredient #3 is anti-knock mix for extra resistance to

You might think that the two ingre-dients above would be enough to give you knock-free performance. But Shell's scientists have ears like musicians.

They insist on adding a special anti-knock mix. A mix, so effective, one teaspoon per gallon can boost anti-knock rating by seven points.

This mix has the tricky job of mgulat-ing combustion so that Super Shell gives each piston a firm, even push-rather than a sharp blow which would

Super Shell now contains an even bet-ter version of this famous additive. It was originally developed for use in

TCP* additive can give your car up to 15 per cent more power; 17 extra miles per tankful; and make your plugs last twice as long.

Today's aviation grade TCP does this by neutralizing the harmful effects of engine deposits. It stops them from glowing when hot—a major cause-of

It also stops them from diverting yourspark—a major cause of "missing,"

Ingredient #5 is butane for quick starts on icy mornings

By itself, butane is so volatile that it would actually. leil in your refrigerator. In Super Shell, it helps your engine fite in seconds. Think what this means in cold weather. Your battery is relieved of strain-and so is your paties NOTE: Super Shell is primed with bu-tane all year round. In winter, Shell scientists simply increase the quick-start dose.

Ingredient #6 is mixed pentanes for fast warm-ups on cold days

The rask water-up on corn again, and the present are made by tearing gasoline spart, much the way you split logs into kindling to start a log fire.

In this case, the "logs" are petroleum's heavier hydrocarbons. A special process transforms their molecules from islouburning "logs" to quick-firing "kindling."

NET RESULT: Fast warm-up and top mance in a hurry.

to stop stalling due to carburetor

Super Shell's formula is adjusted up to eight times a year for your area to beat the weather. Whenever the tempera-ture is likely to be less than forty-five

degrees, an anti-ice ingredient is added. Why add anti-icer at forty-five degrees! Because even then, frost can form in your carburetor just as it does in your refrigerator. It can choke your engine dead,

Ingredient #8 is gum preventive to keep the fuel system clean

Even the purest gasoline can form gum when stored. This can clog carburetors, fuel lines, and pumps. But, with Super Shell you needn't worry. A special gum preventive does the trick.

It acts like a policeman controlli mob. Keeps an eye on unstable ele-ments-stops them from clotting and orming gum. Super Shell makes gummed-up

engines a thing of the past

Ingredient #9 is Platformate for extra energy, more mileage

t takes one million dollar worth of platinum catalyar for Shell to produce its Platformate. But fortunately for you and for us, this precious stuff can be tised over and over again. The platinum process, which gives Platformate its odd name, re-forms

petroleum into super-energy compon-ents-such as benzene, toluene

and volene

These three alone release 7 per cent more useful energy per gallon than the best 100-octane aviation gasoline. but make no mistake. This is not un-tamed energy. Far from it. The super-energy of Platformate is harnessed by the eight other ingredients in Super Shell, where it behaves so well you scarcely know it's there. That is, until

you note your extra mileage. After that, there is no doubt. Test Super Shell for yourself

Try Super Shell next time you fill up. You'll soon feel and hear a difference in the way your engine runs. That difference is top perfor

It had to happen sometime, so perhaps we hould be thankful for small mercles and be thankful for small mercles and be and that it occurred as far away as possible. Down in Briebane, in Australia, they are diding night classes for parents, to leach them now to help their children with their school somework.

omework.
"By this means," says an item in Australian iews, "it was hoped to build mutual confidence stween home and school, and to improve parnt-teacher relations."

ent-teacher relations."

And just when we have solved the home-work problem by frankly admitting that the curriculum is much tougher than it was in our day and that we have absolutely nothing to contribute toward the improvement of pupil-teacher relations!

This is a vast improvement over yesteryear's

performance.
"But Dad, they don't do it that way..."
"I'don't care how your teacher does it. If
you'll just listen to me a minute, perhaps you
will understand what it's all about and then you
can do it any old fool way they want."

But that puts a preposition at the end of a sentence

of a sentence." "So what. You know what Churchill said. He said, "This is pedantry up with which I will not put." Who knows more about English . . ."

"For Heaven's sake. Never mind how you "For Heaven's sake. Never mund how you do it at school. Can't you see that this equals this and this equals this and therefore this equals this. Or does it? Oh, do it your own way. Might classes for parents indeed! As a means of improving parent-leacher relations they cannot hold a candle to sharing a beer over

Playing House

from Trenton.

The RCAF says it won't do it again, but we should still like to know what was the deciding factor in its decision to attempt the job—the possibility of cutting costs or the desire

fob—the possibility of cutting costs or the desire II. It was the former, we can only deplore the RCAF's lack of a nowledge of the cost of moving its men, and squipment.

It was been fairly simple be arready accurate of the cost of a nowledge of the cost of moving its men, and squipment.

It was the control of the cost of the co

Recently the Week German government has aked the United Slades to quash the Allied occupation order forcing the said of the Krupp coal and steel properties. This order was made in 1935 following an agreement with Alread Krupp, the current bead of the bong family sline, for readers of the steel of German vanishtions and sarries with the said for deep the said of the steel of German vanishtions and sarries with the said for deep the said of the steel of German vanishtions and sarries with the said to the Steel of German vanishtions and sarries with the said to the Steel of German vanishtions and sarries with the said to the Steel of German vanishtions and sarries with the said that the Steel of German vanishtions and sarries with the said that the sa

Sport Slices ...

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor

There is gloom on the Rue St. James and Yonge St.
The favored Canadiens and Maple Leafs, backed by many
to battle in the finals for the Stanley Cup, are now the
underdogs. Or are they?

haonireal supporters say "No." They feel, despite the somewhat wacky happenings of the weekend, the Habe will shake off the gramling and moult the cocky

Maple Leaf supporters, abooked a bit at the two raight schacks of Funch Imlach and company, are so talkative about their finals worries. That 2-8 set-sek Sanday really belied Toronto hopes. And the fact that both the Leafs and the Canadiens y on foreign ice tonight in the fourth game of the set not exactly reassuring to supporters of both clubs

But don't sell these clubs short. The Hash are still a mighty machine and Imiach has the uncanny power of firing his club to the heights regardless of injury, gresslin or what have you.

Naturally whe fans of the Black Hawks and the Red Wings are riding cloud 73. They feel, and perhaps rightly so, that the current leaders of the semi-final series are up and riding a crest. And with home games tonight, a victory will mean the Leafs and Habe have the tremendous task of winzing three games in a row,

sk of witning three games in superstitions, you'd bet-ter keep your fingers crossed. For the 1961 Stainly Cup series marks the 11th stright appearance of the Montreal Canadiens. They have played in the cup fipself for the last 10 years, winning it in six of them. They are the only cloub to win it for five consecutive years.

The colorful Habs have won the cup 12 times alto-gether. The Red Wings and Maple Leafs have copped the silverware on seven conssions. Chicago has won it twice only, in 1994 and 1938.

The Chicage Stadium proved the graverant of an-other well-known NRL whistle-blower. "Red" Steep, for it was only a year see that a ranking develop-tion of the stade of the Al that these the Huwa's case, long Fines, madifful-th the non-famous "chalcum stay" and pade plenty for the non-famous "chalcum stay".

And Gordie Howe will be record-seeking in this series too- He is after Canadison. Doug Harvey's assists record of 38 in 12 playoff series. Howe has 55 to date in 14 series.

o date in 14 orders. Howe has it is paryett series. Howe has it is desired to the control of the

My does International lead in heavy-duty sales?

'Lowest cost-per-ton-mile' sums up the reasons:

No one buys heavy-duty trucks on impulse— there's too much at stake. Many questions have to be answered before a decision is made.

How well will the truck do the job? Can it be depended on for maximum availability? Will operating costs be rock-bottom? How long will it last? How much will it be worth at trade-in time? Can the dealer be depended on for prompt perts supply and efficient maintenance? To get the answers to such questions, truck buyers size up competitive dealers for their knowledge of trucks—their range of trucks and their truck service facilities. Above all, they compare the operating costs of their own truck and other units doing similar jobs.

When all these facts are weighed, you'll see why Canada's heavy-duty truck operators buy more Internationals than any other kind.

Records prove it-you'll get lowest cost-per-ton-mile with

Theory and Practice

In Toronto, a Court of General Sess

grand jury has recommended that we stop send-ing intendested men to jail.

"The suggestion," writes Frank Tumpane, Tromto Telegram columnist, "is so sensible it will likely take the public a long time to steept

Later in his article, Tumpane says: "The obscume drunk who makes a nuisance of himself on the street or in a public place has no claim to sympathy and I am not suggesting he get say. The ugly drunk who picks quarets with innocent citizen is another of that ilk who also should get a taste of jall to teach him manner."

Tumpane, however, argues that the habitual heavy drinker rarely fits into either of these two

categories.

We have some reservation in accepting this view, we recall a veteran Provincial Police segment, who used to say, with a way girls. There is considerable truth in this searching and the man who, having got drumk, either bothers women or pilets fights with men deserves, as Tumpans has seld, to land in jail.

Tumpane has selo, to land in Jall.

It may be, though, that the police sergeant's observation applies only to the normal man and not to the habitual drunkard. Tumpane argues that such a man harms only himself.

not to the hadritual cruiteract. Tunipages a guest that such a man harms only himself.

But, whatever may nappen the larger centres, in most heart of the control, in the control of the mindight own business and behirring shooty already, in large measure, could be the control of treatment withich Tumpans, and the Toronto grand jury, advocate. So long as he is not notway, and does not attempt to drive a car, he will find police ready to look the other way as he wends his way home. There are times when the presence of other people forces the policeman to distinct the police time was the control of the control of the police time to the plant timb is that the country shot wall be plain timb is that the country shot wall be plain timb is that the country shot wall be plain timb is that the country shot wall be plain timb is that the country's plain would be full to the still of the country and taken a drop too much—and whom the police knew had don's at-wer letched up and charged. In principle, there can be no question, but

and conject—were lickind up and charged.

In principle, there can be no question but
that the principle conject in the legal a state of
state which airwayl, in large measure, exists
in practice. We cannot help wondering, though,
how many of these quiet drunks would restrain
themselves if they knew that the police would
have to prove they were making a public units
ance of themselves before they could convict
them in court.

Perhaps it is best to leave things as they

We are not at all proud of reaching that we are not at an proud of reasoning motor conclusion; it is at variance with our every in-stinct to suggest that there are some cases in which it is best to trust to the discretion of the police than to the letter of the law. But this may just happen to be the exception to an other-wise sound rule.

Million Dollar Gift

Dr. Claude Bissell, president of the University of Toronto, has announced that a donation of a milliop₂ dollars will be used to finance research into disorders of the nervous system. First project will be an intensive study of Park. inson's disease, a mysterious affliction sometimes called the shaking palsy, for which there is no

known cure.

Presumably the scientists who will undertake this research have hopes that it may prove fruitful. Presumably, too, but for the donor of a million dollars this research could not have been undertaken because of tack of funds. Let us presume further that there are other potentially useful strides which could be undertaken were money available. This poses the question whether there is not some more efficient way of thany users more yarallable. This poses the question whether there is not some more efficient way of meeting the problem of financing than depending upon philanthropists who have a million collars to give sway. Though this was the second gift of this size to the university within the country of the supply of such donors must five months, the supply of such donors must surely be limited—more limited, we suspect, than the fields in which research could usefully be undertaken. Can anybody suggest a workable

When Prime Minister Verwoerd of South Africa arrived home as Johannesburg alrowt one of the members of the National Party greet of him as "not only the leader of the white man in Africa but of the white man in the world."

If there were any justice, it would be possible to sue that man for libel.

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor

Sevenal runners wont the rounds. One of them the Angel was a creener of parts who contient this ower a microphena because he couldn't get meets open wide enough to play. He had decided to on television, so the manager announced that on ain might he would take off the white bood.

Then the Angel got mad. He flung-the Mask out of ring. Now the Mask weighs 200 and he landed on I nearly crushed a photographer. The Mask yanked the cameraman's bag, leaped back into the ring and on to pound the stongel with it.

Then an indignant old lady went to the recent. Her face purple with rage she attempted to climb into the ring and slug the Masked Man with her handbag. A guodarme grappied with her. All this time the Angel was tangled in the ropes and the Mask was trying to remew not his mask but his pants.

The Angel tore himself loose from the clu hands of the Mack. They backed into separate or and glared at each other. Then like rhines in n time they lowered their heads and charged.

They met head-on. The Mask was huried through ropes and landed on a nice nort bed of rotten and er fruit. The Angel fell unconscious inside the g. The battle of the stenchury was over-

The Angel came to first. The place was silent, breaklites as he removed his mask. He proved to be a good looking gur with a straight nose, while flashing teeth and a nice smile.

He sang on television that night. He were his mask, but his wrestling days are over. He has a mountain of france, a forest of mademoiselles and a TV contract.

of over technical posts now filled by foreign ex-perts. Last month \$30 sentor government employees completed a two-month course in ec-connects, statistics, constitutional and admin-tarative flaw. One may well ask whether a course of such short duration could possibly adequately equip them to solve the problems they will face. But in the country of the blinds of the country of the blinds of the country of the like would have been for all concerned had the Belgians attempted this sort of thing during their long years as the country's ruleral

Spread Thin

Spread Thin
Canada's defense expenditures being what
they are—and they not mail—it sounds
passing strange to be layam to learn that
Canada may have trouble in finding two dozen
Army officers to provide technical training for
the army of Ghana.
This possible difficulty arose when Ottera.
considered over the syeckend the possibility that.
This possible difficulty arose when Ottera.
considered over the syeckend the possibility that
trouble spot and the international truce supervolvey commission, of which Canada was a member, was reconstituted. About a hundred Canadians were serving in Lace when the supervisory
commission was suspended in 1954. He was not to the
certain technical skills would tax the capacity
of the Canadian Army. This seems hard to behow—even if we grant that there are other
commitments which must be given at least equal
priority.

Quotations Are Tricky

Sport Slices ...

RARE, MEDIUM, WELL-DONE By GEO. H. CARVER, Sports Editor

Thanks is a lot of people and organizations there'll more sports gaing on at the Exhibition Grounds summer that Nore had in his amphibeoires after promoted the lieus-slaves mentily mosts.

The Fair Board brass would not go along with the idea they could dub the grounds the "Bridge Street Gare" and not be guilty of a missomer.

Upper brackets basshall makes its return to the after seven years of dormancy with the outry of ty team, the Kenmers, in the newly-formed Lakere Intermediate League.

The Quinte Riding and Driving Club, acticipating a ger and better season, will stage five summer meets eduled to be held on Saturday evenings. The club I also stage a horse show that will attract exhibits m all parts of the province.

And thanks to the Believille Public Utilities and Board of Parks Management scalor baseball and thall will be played under the lights.

Perix Board member Fred Bradley said yesterday that organization unanimously agreed to make the park islable to city bescholl and softball teams five nights obly. This co-operation along with that of the ptill-s should be greatly appreciated by the various sports amizations in particular and kandom in general.

Mr. Brailer said that Farks Superintendent Gor-den Richatson has assured the board all the diamonds will be placed in fine shape for opening notivities. "These excellent facilities provided by citizens should bring mere enforment to both players and speciages," Mr. Brailer said.

Light facilities at the fair grounds, the rebirth of sen-baseball and an augmented roster in senior softball ald result in the best program of summer sports for

Baschall, it has been surpressed, will be played on denedary and Sundays, while ordinal interests have clasted they want Toueskay. Thurskay and Friday his for their home diamond solvilles. Since been in an estiball issues which will utilize the infield mends and socour interests will have plenty of tiers' [or-glay.]

Fandom in perticular will welcome the diamond games ayed undum lights. Heretotore, games had to be sched-of to start as early as 6.15 and many fans who toll five and six octook were herd put to get to the various rks by start time.

The board has socided to submit a tender to telly fee the cutting and ressowal of trees. It feels it this work could be dense furing the valler, it was help previde year-round employment for board er ployees. It shall be feel to be work would be well seen ployees. It shall be feel to be work would be well seen under parks board superintendent Nicholsee, a movell qualified for the position.
